

Minutes of a Regular Meeting of the City Council.
Austin Texas June 1st 1896.

Gen. Lewis Hancock, Mayor, presiding.

Roll called.

Present Aldermen Bealy, Booth, Haynes, Horton, Lawless, Stitscher, Platt, Powell, Prett, Rosengren, Schneider, Shelley, Taylor, Tobin, Townsend and Zilker 16

Absent Aldermen Fischer, Glascock, Glass, Simm, Roberdeau and Stunkf 6.

On motion of Alderman Taylor the reading of the minutes was dispensed with and they were adopted as printed.

Aldermen Fischer and Roberdeau entered the Council Chamber and answered to their names.

The Mayor laid before the Council the following veto message:

Mayor's Office, Austin Texas, May 25th 1896.

To the Honorable City Council:

Gentlemen, I herewith return to you with my disapproval, resolution passed by you at your meeting on May 18 last, as follows:

Be it resolved by the City Council of the City of Austin, that all the water pipe now left the City from the former water main leading to the Drill grounds be laid to supply East First Street on the drive, in the "South Ward," with my reasons for such disapproval, as follows:

The City through the Board of Public Works, and later through the Water and Sight Commission, have done all that could be done with the means at the disposal, to reach all citizens with water mains until now we have perhaps the most extensive and liberal system of mains in proportion to our extent and population of any City in the world. But it is not possible to reach every citizen.

The great extent of the City's limits forbid this, however great may be the wish to give them water and though it may be a hardship that they cannot get it. This is the situation which confronts the Council and the Water and Sight Commission at the present time.

The last two hundred thousand dollars of bonds were sold to pay certain accounts, to complete, as far as possible, the water main and electric line system, and to leave a sum of money, more or less uncertain, but in the neighborhood of one hundred thousand dollars for the construction of a reservoir. After paying said accounts and extending very widely the water mains and electric lines, there is now left for the reservoir a sum of only about thirty-eight thousand dollars. The report of Consulting Engineer Hazen, and the accompanying report of the Water and Sight Commission, show how essential it is that this reservoir should be built and that its cost will consume all the balance remaining on hand from the proceeds of the last sale of bonds.

In addition certain drains and improvements must be made in the electric machinery, in the power house, and the main, covermen, etc. etc. etc. The present money, and more must be collected by the City Council, and the reservoir must be built to the benefit of the City.

Mayor's veto message on water pipe to be laid on E 1st St.

source to make up a certain deficiency.
 In view of this state of facts it seemed impossible for the Water and Light Commission to continue extensions at present, and Dully agree with them in this opinion. Numerous applications have come to the Commission for pipes, and among them the matter caused upon by the resolution in question. All received anxious consideration, but none were so carefully considered as this one; but the Commission felt that their duty to this City at large forbade them to undertake further extensions at this time. I may say, further that great complaint justly comes from many fixed settled parts of the City of the foul water caused by "dead ends" in the present system of pipes, and that it was intended to use the two new pipes under consideration in connecting up these "dead ends" so as to properly complete the system already laid.

For the above reasons I disapprove said resolution, and hope you will give careful attention to the situation, when you come to reconsider the matter.

Respectfully,
 Lewis Hancock, Mayor.

Motion to reconsider adopted.

Alderman Nitschke moved to reconsider the vote by which the resolution was passed, which motion prevailed.

Aldermen Glass and Stump entered the Council Chamber and answered to their names.

Report of Mr S. Com...

The following report from the Water and Light Commission was laid before the Council and read:

Justin Sear, June 1st 1896.

To the Honorable City Council of the City of Austin:
Gentlemen, Your Water and Light Commission ask leave to report that the plans and specifications of Mr. Allen Hays for a 3,300,000 gallon reservoir has been received, which the Commission now lays before you and ask authority to advertise for bids to construct a reservoir of that capacity, or one of 5,000,000 gallons capacity, on the site recommended by the Austin Water and Light Commissioners on the John Hancock property north of the Sunnyside Asylum, and also to advertise for bids to construct standpipes of same capacity, as may be determined after the bids are opened, is best and most economical.

Respectfully,
Wm H. Tobin
Francis Fischer
J. P. Schneider
Lewis Hancock
Water and Light Commission.

Alderman Goeth moved the adoption of the report and that the Water and Light Commission be authorized to advertise for bids. Alderman Horton moved to postpone the matter until the next regular meeting of the Council, which motion prevailed by the following vote:

Yeas Aldermen Bealy, Glass, Haynes, Horton, Kitchner, Platt, Ridd, Robertson, Rosenbach, Stump and Zilker 11.
Nays Aldermen Fisher, Goeth, Lawler, Powell, Schneider, Shelley, Taylor, Tobin and Townsend 9.

Report of Mr S Com... on resolution of Ald. Haynes

Alderman Tobin for the Water and Light Commission, to whom was referred the resolution of Alderman Haynes in regard to the trouble with machinery at the Power house, presented their report, stating that the matter had been answered by the report of the Superintendent. On motion of Alderman Glass the report was received and ordered filed. Alderman Tobin for the Water and Light Commission, to whom was referred the petition of W. C. Reynolds, requesting permission to remove mud from the Lake, presented their report recommending that the petition be granted, and on motion of Alderman Stump the report was adopted.

Report of Mr S Com... on resignation of Supt Maddox

The following report from the Water and Light Commission was then read:

Justin Sear, June 1st 1896.

To the Honorable City Council:
Gentlemen, Your Water and Light Commission request your report on the resignation of Supt Maddox...

provided further that, in any event Mr. Maddox should have thirty days notice of the actual termination of his services.

On taking this action the Commission were actuated by the belief that the City's valuable Water, Light and Power plant should be under the superintendency of a trained and experienced mechanical and electrical engineer. The Council are aware of the vast cost of the power house and the machinery therein, and of the intricacy and delicacy of its machinery, and the Commission believe that the responsibility which rests upon it and upon the Council for the preservation and operation of this machinery, demands the services of an engineer of scientific training, as well as practical experience in the management of similar plants. The Commission have not as yet secured any such engineer, nor can they expect to do so without much time, labor and investigation among plants similar to ours, where alone we can hope to find the man for the place.

The Commission, however, are ready to give the matter the necessary time and labor, and propose, subject to the control of the Council as provided by ordinance, to secure such an engineer by means of personal investigations. The Commission believe that the magnitude of the interests involved, demand that the City should get the best man to be had, pay him what his services are worth, back him up in his methods of managing the plant, and then hold him to a strict responsibility for its economical and successful operation. At the proper time the Commission will ask the Council to pass upon this matter of compensation. It is but just to the retiring Superintendent to say, and the Commission have pleasure in saying, that they can not speak too highly for Mr. Maddox's zeal and fidelity in the City's behalf.

He has been untiring, zealous and faithful, and it is with much regret that the Commission have arrived at the conclusion that the technical nature of the duties of the position demand the services of a man of technical training and experience.

Respectfully submitted,
Wm H. Tobin,
Francis Fischer,
J. J. Schneider
Lewis Hancock,
Water and Light Commission.

Alderman Sawless suggested certain amendments to the report, which were accepted by the Committee, and on motion of Alderman Sheller, the Commission were granted leave to withdraw the report to make the changes suggested.
