Hey Dora:

The owner of 408 W. 33rd Street (Callan-Boswell House) is objecting to the postponement - would you pass this along to the Planning Commission? Thanks.

Steve: it has come to my attention that a request has been received by the Planning Commission that the matter of 408 E 33rd street be postponed from its scheduled second hearing on July 27, 2010. This case has already been postponed once. I object to this second postponement. I don't believe that NUNA has any standing to request the postponement and there is no justification included in the postponement request for such action.. This is just another delay tactic by three residents who somehow believe this is a LHD matter. Please pass my position onto the Chair of the Planning Commission.
Sincerely, Charles
