#### ZONING CHANGE REVIEW SHEET

CASE: C14-2010-0132 Central Texas Rehabilitation Z. P. C. DATE: 08-17-2010

ADDRESS: 4500 ½ Triangle Avenue

**<u>APPLICANT:</u>** State of Texas (Hal Croft)

**NEIGHBORHOOD PLAN AREA:** None

WATERSHED: Waller Creek

HILL COUNTRY ROADWAY: No

**DESIRED DEVELOPMENT ZONE:** Yes

AREA: 3.681 Acres

**CAPITOL VIEW:** No

**ZONING FROM:** Unzoned – State of Texas property.

**ZONING TO:** CS-CO – General Commercial Services – Conditional Overlay

#### **SUMMARY STAFF RECOMMENDATION:**

Staff recommends CS-CO - General Commercial Services - Conditional Overlay. The Conditional Overlay would limit vehicle trips to less than 2,000 per day.

#### **BASIS FOR RECOMMENDATION:**

Zoning changes should promote compatibility with adjacent and nearby uses and should not result in I. detrimental impacts to the neighborhood character.

Granting the zone change request would be in keeping with the surrounding uses to the south and west, which are hospital services provided by the State of Texas.

## ZONING AND PLATTING COMMISSION RECOMMENDATION:

#### **DEPARTMENT COMMENTS:**

This tract of land is located on the property known as "the Triangle, which is owned by the State of Texas. The State of Texas entered into a lease agreement in 1997 with Triangle Retail, Inc. in order to develop the land to benefit the Texas Department of Mental Health and Mental Retardation. The Triangle is currently developed with various low to mid rise mixed use buildings to the north, with retail/commercial uses on the ground floor with residential dwelling units on the upper floors. The property to the west is currently developed with the State Children's hospital and the property to the south is also developed with a State hospital. The proposed us for the subject tract is a rehabilitation hospital. This use is fair and reasonable, compatible and consistent with the other uses that currently surround the subject tract. Most of the other buildings are on a long term lease with the State and thus do not have zoning. However, the applicant is going to purchase this property from the State, fee simple, so the land needs to have zoning.

#### SITE PLAN COMMENTS RECEIVED:

Any new development is subject to Subchapter E. Design Standards and Mixed Use. 45th Street is an Urban Roadway and Guadalupe Street is a Core Transit Corridor. Additional comments will be made when the site plan is submitted.

FYI - Site plan review and approval can not be finalized until the lot(s) is/are legal by recorded plat or, if applicable, a Land Status Determination is able to determine if it is a legal tract. In order to make this determination, contact the Development Assistance Center on the first floor (Section 25-1-61).

## TRANSPORTATION COMMENTS RECEIVED:

A traffic impact analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 vehicle trips per day. [LDC, 25-6-117].

#### **ENVIRONMENTAL COMMENTS RECEIVED:**

- 1. The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Waller Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.
- 2. Impervious cover is not limited in this watershed class; therefore the zoning district impervious cover limits will apply.
- 3. This site is required to provide on-site structural water quality controls (or payment in lieu of) for all development and/or redevelopment when 5,000 s.f. cumulative is exceeded, and detention for the two-year storm. At this time, no information has been provided as to whether this property has any pre-existing approvals which would preempt current water quality or Code requirements.
- 4. According to flood plain maps, there is no flood plain within the project area.
- 5. Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.
- 6. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.
