

ZONING CHANGE REVIEW SHEET

ca
/

CASE: C14-2010-0118

P.C DATE: August 24, 2010

ADDRESS: 1901 South Lamar Boulevard

OWNER/APPLICANT: Columbine Properties, Inc. (William Tamminga)

AGENT: A.J. Ghaddar, P.E. & Associates (A.J. Ghaddar)

ZONING FROM: CS

TO: CS-1

AREA: 0.266 acres (11586 ft²)

SUMMARY STAFF RECOMMENDATION: Staff recommends approval of Commercial-Liquor Sales (CS-1) district zoning.

DEPARTMENT COMMENTS: This 0.266 acre site is currently developed with an unused auto-garage. The applicant seeks to rezone the property to Commercial-Liquor Sales (CS-1) district zoning to repurpose the building into a cocktail lounge.

ISSUES: The Zilker Neighborhood Association does not support the rezoning request based on parking requirements. The applicant has submitted a parking plan from a previous site plan exemption (SP-01-0114CS) approved in 2001 showing that the site can accommodate the required parking spaces (see attached).

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	CS	Auto Repair
<i>North</i>	CS	Restaurant/Auto Repair/Retail
<i>South</i>	CS	Office/Retail
<i>East</i>	CS/SF-6	Warehouse/Apartments
<i>West</i>	CS	Auto Repair

TIA: Waived

WATERSHED: West Bouldin Creek

DESIRED DEVELOPMENT ZONE: Yes

CAPITOL VIEW CORRIDOR: No

HILL COUNTRY ROADWAY: No

CASE HISTORIES

NUMBER	REQUEST	COMMISSION	COUNCIL
SP-01-0114CS 2303 South Lamar	Site Plan exemption	Approved and Released	N/A
C14-04-0101 (Evergreen and South Lamar)	CS, CS-MU-CO,SF-3,CS- CO to CS-MU	9/21/04 - APVD STAFF ALT REC OF CS-MU-CO; ALL GR USES; ALLOWABLE CS USES ARE CONDITIONAL (8-0)	1/27/05 - APVD GR- MU-CO (5-0); 3RD RDG

BASIS FOR RECOMMENDATION

1. *Zoning should allow for reasonable use of the property.*

The recommended zoning will allow for the reuse and repurposing of an existing building located on South Lamar Boulevard.

2. *Zoning changes should promote a balance of intensities and densities.*

The recommended zoning is located along a major north-to-south core transit corridor and is an appropriate location for high-intensity zoning.

EXISTING CONDITIONS

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the West Bouldin Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

Impervious cover is not limited in this watershed class; therefore the zoning district impervious cover limits will apply.

This site is required to provide on-site structural water quality controls (or payment in lieu of) for all development and/or redevelopment when 5,000 s.f. cumulative is exceeded, and detention for the two-year storm. At this time, no information has been provided as to whether this property has any pre-existing approvals which would preempt current water quality or Code requirements.

According to flood plain maps, there is no flood plain within the project area.

No trees are located on this property. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

19/3

Water and Wastewater

If the landowner intends to serve the site with City of Austin water and wastewater utilities, the landowner, at own expense will be responsible for providing the water and wastewater utility improvements, offsite main extensions, system upgrades, utility relocations and or abandonments required. The water and wastewater plan must be in accordance with the City of Austin utility design criteria. The water and wastewater utility plan must be reviewed and approved by the Austin Water Utility. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

Stormwater Detention

At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in stormwater runoff will be mitigated through on-site stormwater detention ponds, or participation in the City of Austin Regional Stormwater Management Program if available.

Transportation:

Additional right-of-way may be required at the time of site plan or subdivision application.

A traffic impact analysis was not required for this case because the traffic generated by the proposed zoning does not exceed the threshold of 2,000 vehicle trips per day. [LDC, 25-6-113]

Existing Street Characteristics:

Name	ROW	Pavement	Classification	Sidewalks	Bike Route	Capital Metro
S. Lamar Blvd	70'	58'	Arterial	Yes	No	Yes
Mary Street	60'	38'	Collector	Yes	Yes	Yes (within ¼ mile)

Subject: 1901 S. Lamar rezoning

C9
6

Hello, Mr. Rye.

Regarding the rezoning of 1901 S. Lamar to CS-1 (Case C14-2010-0118), the executive committee of the Zilker Neighborhood Association has decided to oppose the request. The property does not have sufficient parking for the proposed cocktail lounge use (even the previous car inspection station was notorious for parking cars on the sidewalks and blocking the public right of way in various other ways). The site is appropriate only for small retail (not automobile related) and office uses.

This notice of our opposition should be considered ZNA's registration as an interested party in this case.

Thank you for your attention.
Lorraine Atherton
on behalf of the Zilker NA executive committee

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website:

www.ci.austin.tx.us/development

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.
