ZONING CHANGE REVIEW SHEET

CASE: C14-2010-0163 Austin Cribs

Z. P. C. DATE: 12/07/10

ADDRESS: 6320 City Park Road

AREA: 0.082 Acres

APPLICANTS: Austin Cribs (Cord Shiflett)

AGENT: Irion Slade, L.L.C. (Terry Irion)

NEIGHBORHOOD PLAN AREA: None

CAPITOL VIEW: No

WATERSHED: West Bull Creek

T.I.A.: No.

HILL COUNTRY ROADWAY: Yes

DESIRED DEVELOPMENT ZONE: No

ZONING FROM: DR – Development Reserve.

ZONING TO: LR – Neighborhood Commercial.

SUMMARY STAFF RECOMMENDATION:

Staff recommends LR-CO – Neighborhood Commercial, Conditional Overlay. The Conditional Overlay would limit vehicle trips to less than 2,000 per day.

BASIS FOR RECOMMENDATION:

1. *Granting of the request should result in an equal treatment of similarly situated properties.*

The requested zoning would be in keeping with the zoning on the thirteen acres that this tract is contiguous with.

ZONING AND PLATTING COMMISSION RECOMMENDATION:

DEPARTMENT COMMENTS:

This tract of land was originally rezoned in 1999 under case number C14-99-0077. The zone change request was from Development Reserve (DR) to Neighborhood Commercial (LR) and was approved on March 9th, 2000 by ordinance number 000309-81 (see attached). A few months later, the subject tract was removed from the original ordinance by a corrective ordinance number 001012-15 (see attached). Staff has not to date determined why the “remnant” tract was included in the original zone change request or why it was removed. A fair and reasonable, compatible and consistent zoning would be the same as the approximate thirteen acre tract that the subject tract is contiguous with and that zoning would be Neighborhood Commercial.

SITE PLAN COMMENTS RECEIVED:

SP 1. Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

SP 2. The site is located along RM 2222, a Hill Country Roadway Corridor. The site is located within the moderate intensity zone of the Hill Country Roadway.

SP 3 Except for clearing necessary to provide utilities or site access, a 100/50 foot vegetative buffer will be required along RM 2222. At least 40% of the site (excluding dedicated right-of-way) must be left in a natural state. The allowable height is as follows: Within 200 feet of RM 2222 the maximum height is 28 feet.

C6/3

SP 4 Prior to the issuance of a building permit for the proposed use, a site plan must be approved by the Zoning and Platting Commission.

TRANSPORTATION COMMENTS RECEIVED:

No additional right-of-way is needed at this time.

A traffic impact analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 vehicle trips per day. [LDC, 25-6-117]
