

CITY OF AUSTIN
Board of Adjustment/Sign Review Board
Decision Sheet

DATE: Monday, April 11, 2011

CASE NUMBER: C15-2011-0019

Y ___ Jeff Jack
 Y ___ Michael Von Ohlen
 Y ___ Nora Salinas
 Y ___ Bryan King
 Y ___ Leane Heldenfels, Chairman **Motion to Grant**
 Y ___ Clarke Hammond, Vice Chairman **2nd the Motion**
 Y ___ Heidi Goebel

APPLICANT: David C. Cancialosi

OWNER: Steven McLean

ADDRESS: 6105 YORK BRIDGE CIR

VARIANCE REQUESTED: The applicant has requested a variance to increase the maximum building coverage requirement of Section 25-2-492 (D) from 20% (existing 38.4%) to 42% in order to erect an addition to a single-family residence in an "I-RR", Interim Rural Residence zoning district.

BOARD'S DECISION: The public hearing was closed on Board Member Heidi Goebel motion to Grant, Board Member Jeff Jack second on a 5-1 vote (Board member Bryan King nay); Automatic Postponement to April 11, 2011 due to vote 5-1.

April 11, 2011 The public hearing was closed on Board Member Leane Heldenfels motion to Grant 40% Impervious Coverage, Board Member Clarke Hammond second on a 7-0 vote; **GRANTED 40% Impervious Coverage.**

FINDING:

1. The Zoning regulations applicable to the property do not allow for a reasonable use because: the area of new addition will comply with SF-3 zoning
2. (a) The hardship for which the variance is requested is unique to the property in that: HEB shopping center is behind house which creates a runoff not able to be manage naturally and therefore owners need to make certain improvements
(b) The hardship is not general to the area in which the property is located because: drainage issue and adjacent to HEB
3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because: nothing will appear from street all construction and addition is in back of house

I/We David Cancialosi on behalf of myself/ourselves as authorized agent for

Steven McLean _____ affirm that on Jan 25, 2011,

hereby apply for a hearing before the Board of Adjustment for consideration to:

(check appropriate items below)

ERECT ATTACH COMPLETE REMODEL MAINTAIN

NOTE: The Board must determine the existence of, sufficiency of and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional support documents.

(zoning district) ~~SP3~~ - I-RR
25-2-492(D) allow 42% Building Coverage

VARIANCE FINDINGS: I contend that my entitlement to the requested variance is based on the following findings (see page 5 of application for explanation of findings):

REASONABLE USE:

1. The zoning regulations applicable to the property do not allow for a reasonable use because:

The existing single story structure was built by the original builder @ 39% building coverage (BC). The rear yard slightly increases in grade as you approach the rear fence, creating consistent drainage issues in the yard. A rear 200 SF uncovered patio and roof gutter system was added to mitigate rainfall and drainage from the grass onto the original rear covered porch area. However, drainage and runoff from the grass and uncovered patio to the covered patio area cannot be prevented. This is causing interior flooding issues. The owner is proposing to erect a 200 SF porch enclosure over the existing concrete in order to mitigate problematic drainage and weatherization issues.

If approved, the subject site currently reflects and will maintain a total of 43.3% impervious coverage. The 200 SF patio cover will increase the BC to approximately 41.6%-42% BC. There are no residences to the rear of the property. The adjacent rear property is part of the HEB shopping center.

HARDSHIP:

2. (a) The hardship for which the variance is requested is unique to the property in that:

Drainage from the rear yard into the patio area cannot be contained. To remove additional building coverage (in order to add the patio enclosure) will require partial demolition of the existing single story residence. No impervious cover can be removed to remedy the situation.

- (b) The hardship is not general to the area in which the property is located because:

No other adjacent properties are known to have this issue. Two, 2 story adjacent properties located on either side of the subject site at 6101 and 6109 Yorkbridge Circle have 31% BC and 36% BC, respectively. Each lot is the same size as the subject site: 7200 SF.

AREA CHARACTER:

3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

The proposed addition's exterior will be in keeping with the existing structure and surrounding neighborhood aesthetics. The enclosure will add no more impervious coverage to the lot. The enclosure must pass approval by the Circle C HOA. The enclosure will be no closer than the existing uncovered patio and will extend no further than rear facades of residences / additions visible from the subject site's rear yard.

PARKING: (Additional criteria for parking variances only.) ****N/A****

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed Section 479 of Chapter 25-6 with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonable require strict or literal interpretation and enforcement of the specific regulation because:

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly

RESIDENTIAL PERMIT APPLICATION

I understand that in accordance with Sections 25-1-411 and 25-11-66 of the Land Development Code (LDC), non-compliance with the LDC may be cause for the Building Official to suspend or revoke a permit and/or license. I understand that I am responsible for complying with any subdivision notes, deed restrictions, restrictive covenants and/or zoning conditional overlays prohibiting certain uses and/or requiring certain development restrictions (i.e., height, access, screening, etc.) on this property. If a conflict should result with any of these restrictions, it will be my responsibility to resolve it. I understand that, if requested, I must provide copies of all subdivision plat notes, deed restrictions, restrictive covenants, and/or zoning conditional overlay information that may apply to this property.

I acknowledge that this project qualifies for the Site Plan Exemption as listed in Section 25-5-2 of the LDC.

I also understand that if there are any trees greater than 19 inches in diameter located on the property and immediately adjacent to the proposed construction, I am to schedule a Tree Ordinance review by contacting (512) 974-1876 and receive approval to proceed.
