STREET ADDRESS: 9118 Lantana Way, Austin, TX 78749

LEGAL DESCRIPTION: Subdivision - Village at Western Oaks Section 16-C

Lot(s) 1 Block 21 Outlot _____ Division _____

I/We Jim Odom on behalf of myself/ourselves as authorized agent for

David & Pam Rogers affirm that on 4/1, 2011,

hereby apply for a hearing before the Board of Adjustment for consideration to:

(check appropriate items below)

ERECT ATTACH COMPLETE REMODEL MAINTAIN

An attached pergola with one column 7 feet from the rear property line

in a SF-2 district.
(zoning district)

NOTE: The Board must determine the existence of, sufficiency of and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional support documents.

VARIANCE FINDINGS: I contend that my entitlement to the requested variance is based on the following findings (see page 5 of application for explanation of findings):

REASONABLE USE:

1. The zoning regulations applicable to the property do not allow for a reasonable use because:

The plot plan shows (2) building lines, a 5' rear and 10' rear building line. This is a corner lot with diagonal rear building lines. One of the pergola columns only is between the 2 building lines. This column placed 7' from the rear property line. We are requesting a variance to decrease the minimum rear yard setback requirement of Section 25-2-492 (D) from 10 feet to 6 feet in order to maintain an attached pergola for a single-family residence in an "SF-2", Single Family Residence zoning district.

HARDSHIP:

2. (a) The hardship for which the variance is requested is unique to the property in that:

A residential building permit was applied for, reviewed and issued by planner Keith Batcher, and the pergola structure was consequently built according to the building permit and building plans.

- (b) The hardship is not general to the area in which the property is located because:

AREA CHARACTER:

3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

—This is a corner lot and the entire structure is built within the 5' property line

PARKING: (Additional criteria for parking variances only.)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed Section 479 of Chapter 25-6 with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonable require strict or literal interpretation and enforcement of the specific regulation because:

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.
