Re: University Baptist Church request for suspension of a Restrictive Covenant (case No. c15-89-018) during construction of Student Housing including UBC off-street parking.

C 15-2011-0071

As parties to the UNO (University Neighborhood Ordinance) and the associated design requirements, we support the UBC request to suspend the requirement to provide off-street parking in order to construct a high-rise student housing project under the UNO. UBC has been helpful to our congregation during times when we needed additional parking. We don't anticipate there to be a significant impact on traffic or parking during the construction period for the student housing project.

Thank you for your consideration,

Rev. Paul Collinson-Streng
Lutheran Campus Pastor
