Subject: IBM Resubdivision - C8-2011-0062.0A - Sept 13 PC

C9

Dora,

Staff will be requesting a two (2) week postponement to (September 27th) on the above case. IBM will not be able to get us the signed mylars for the amended plat which needs to be recorded prior to the approval of this resubdivision. Due to the long three week lead time (that State Law requires for notice on resubdivision applications), the Staff tries to be reasonable when it comes to placing resubdivisions on the agenda. In some cases there are minor issues that still need to be worked out, and that both the applicant and the staff believe can easily be solved within that three week time frame, however it does not always work out as it should and a postponement must then be requested.
