

**ZONING CHANGE REVIEW SHEET**

C13  
1

**CASE:** C14-2011-0117 Crestview Station Residential    **P. C. DATE:** 10-25-2011

**ADDRESS:** 950 Banyon Street

**AREA:** 32.63 acres

**APPLICANT:** Continental Homes  
(Richard Maier)

**AGENT:** Alice Glasco Consulting  
(Alice Glasco)

**NEIGHBORHOOD PLAN AREA:** Lamar Blvd./Justin Lane Transit Oriented Development

**CAPITOL VIEW:** No

**T.I.A.:** Yes (update)

**HILL COUNTRY ROADWAY:** No

**WATERSHED:** Waller Creek

**DESIRED DEVELOPMENT ZONE:** Yes

**ZONING FROM:** TOD-NP, Transit Oriented Development - Neighborhood Plan.

**ZONING TO:** TOD-NP, Transit Oriented Development - Neighborhood Plan to change a condition of zoning.

**SUMMARY STAFF RECOMMENDATION:**

Staff recommends approval of items 1, 2 & 4 and Conditional approval of items 3 & 5. The Conditional approval of item 3 would be that the street connection to Morrow Street be for emergency access only, closed with a gate only accessible to first responders and not open to general vehicular ingress and egress and Conditional approval of item 5 would be that the fence be limited to height of eight feet (8') and not ten feet (10').

**DEPARTMENT COMMENTS:**

The Crestview Station property is located in the northern portion of the Lamar Blvd/Justin Lane Transit Oriented Development, (TOD). The Crestview Station property is approximately seventy three acres of land of which the southern portion is developed with low rise multifamily and retail/office space and the northern portion is developed with five baseball fields and the associated parking. The Crestview Station property was zoned Light Industrial-Planned Development Area-Neighborhood Plan (LI-PDA-NP) by Ordinance #040415-50 (see attached) which was the Crestview Neighborhood Plan. In 2008 the City completed the Lamar Blvd/Justin Lane TOD and the City Council adopted the plan with Ordinance #20081211-086 (see attached). When the TOD was adopted, it incorporated the existing PDA for Crestview Station into the TOD. Within the TOD there is a provision in "Section 1.2.5. Conflicting Provisions" that states "The Planned Development Area (PDA) regulations in Ordinance 040415-50 continue to apply to property formerly known as the "Huntsman Tract", currently referred to as the "Crestview Station" or "Midtown Commons" development". So the PDA is controlling over the TOD on this property. The applicant would like to modify the PDA to allow for duplex residential, change some site development regulations, allow for unlimited access to Morrow Street, waive Compatibility Standards internal to the development and allow for a ten foot (10') fence along the western property line adjacent to the railroad tracts.

C13  
2

The City recommends approval of the modification of the existing site development regulations, adding “duplex residential” as a permitted use and waiving Compatibility Standards internal to the development. The City recommends conditional approval of access to Morrow Street and a fence along the western property line. The Conditional approval for access to Morrow Street would be that the street connection be for emergency access only, closed with a gate only accessible to first responders and not open to general vehicular ingress and egress. The City’s justification for this is due to the fact that even though the PDA allows for one thousand vehicle trips per day to Morrow Street, there is no way of ensuring that that limit is not exceeded. And finally, the City would support an eight foot (8’) fence along the western property line for noise abatement. Cited below is the applicant’s request.

**1. Amend Part 6, paragraph 24 of the PDA ordinance (Schedule 1 – Site Development Chart) as follows:**

<u>Regulation</u>	<u>Column A</u>	<u>Column B</u>	<u>Column C</u>
	Single Family Residential	Townhouse & Condominium	All Other Residential Uses
Minimum Lot Size	<b>2,500 SF (NEW)</b>	<b>1,500 SF (NEW)</b>	<b>2,500 (NEW)</b>
Minimum Lot Width	<b>20 FT (NEW)</b>	20FT	20 FT
Maximum Height	<b>40 FT (NEW)</b>	<b>40 FT (NEW)</b>	60 FT
Minimum Front Yard Setback	<b>5 FT (NEW)</b>	5 FT	5 FT
Minimum Front Garage Setback	20 Ft	20 FT	N/A
Minimum Street Side Yard Setback	<b>5 FT (NEW)</b>	<b>5 FT (NEW)</b>	10 FT
Minimum Interior Side Yard Setback	<b>0 FT (NEW)*</b>	0 FT	5 FT
Minimum Rear Yard Setback	5 FT	5 FT	10 FT
Maximum Building Coverage	<b>85% (NEW)</b>	<b>85% (NEW)</b>	<b>85% (NEW)</b>
Maximum Impervious Cover	<b>85% (NEW)</b>	<b>85% (NEW)</b>	<b>85% (NEW)</b>

**Note:** Minimum lot size and width, building coverage and impervious cover, except for column B, lot size, are consistent with the TOD Regulating Plan - sections 4.2.2-4.2.5

\* A 10-foot separation shall be maintained between buildings.

2. **Amend Part 6, paragraph 5 of the PDA ordinance** to allow duplex residential, which is a permitted use in the Lamar Blvd. /Justin Lane TOD Regulating Plan.
3. **Amend or delete paragraph 25 of the PDA ordinance:** currently, paragraph 25 of the PDA limits traffic to 1,000 trips onto Morrow Street. The justification for deleting or amending the trip limit is to enhance connectivity to and from the site and for fire safety and protection. Additionally, the trip limit was imposed prior to the site being designated as a TOD. A TIA update has been submitted, which proposes limited ingress and egress - a right in and right out onto Morrow Street.

3  
C17  
/3

4. **Amend paragraph 20 of the PDA as follows:** “Not withstanding Sections 18 and 19, development of the property is NOT subject to Chapter 25-2, Subchapter C, Article 10 (Compatibility Standards).”

This would waive internal trigger of compatibility standards. Basically, the proposed single family development within the Crestview Station TOD would not trigger compatibility standards against the proposed Midtown Commons multifamily development. The justification is that the property formerly known as the Huntsman Tract is limited 1,472 residential units, which is less than what the TOD regulating plan calls for Compliance with compatibility standards, due to an internal trigger, will reduce the density of the multifamily project. A reduction in density is inconsistent with the goal of promoting high density in TODs. It is important to note that external triggers of compatibility standards will continue to be applicable to the TOD.

5. **Amend section 4.7 - screening** - to allow a 10-foot fence along the backyards of lots that are along the rail road tracks. The purpose of this request is: (1) to mitigate noise from commuter and freight trains, and (2) to screen the trains, especially freight trains with visible cargo, from the view of residents. Without this type of screening, the residential lots that abut the railroad tracts will be difficult to market.

**PLANNING COMMISSION RECOMMENDATION:**

**BASIS FOR RECOMMENDATION:**

1. *Zoning changes should promote compatibility with adjacent and nearby uses and should not result in detrimental impacts to the neighborhood character.*

Incorporating the applicants request and the City’s recommendation will not adversely affect the intention of the Transit Oriented Development.

**EXISTING ZONING AND LAND USES:**

	ZONING	LAND USES
SITE	TOD-NP	Undeveloped
NORTH	LI-PDA	Ball fields
SOUTH	TOP-NP	Multifamily
EAST	TOD-NP	Commercial
WEST	SF-3-NP	Single family residential

**CASE HISTORIES:**

CASE NUMBER	REQUEST	PLANNING COMMISSION	CITY COUNCIL
C14-2007-0095	From LI-PDA-NP to P	Approved P [Vote: 9-0]	Approved P [Vote: 7-0]
C14-03-0041	From CS to CS-1-CO	Approved CS-1-CO [Vote: 6-1]	Approved CS-1-CO [Vote: 7-0]

- Crestview Neighborhood Assn.
- Highland Neighborhood Assn.
- Responsible Growth for Northcross
- North Austin Neighborhood Alliance
- 

**SCHOOLS:**

Brown Elementary School, Webb Middle School, Lanier High School

**SITE PLAN:**

- SP 1. This site will be subject to the development requirements of the Lamar Blvd./Justin Lane TOD Regulating Plan, which supersedes all standards and regulations in Chapter 25-2 Document E: Design Standards and Mixed Use.

**ENVIRONMENTAL:**

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Waller Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.
2. Impervious cover is not limited in this watershed class; therefore the zoning district impervious cover limits will apply.
3. This site is required to provide on-site structural water quality controls (or payment in lieu of) for all development and/or redevelopment when 5,000 s.f. cumulative is exceeded, and detention for the two-year storm. At this time, no information has been provided as to whether this property has any pre-existing approvals which would preempt current water quality or Code requirements.
4. According to flood plain maps, there is no flood plain within the project area.
5. Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.
6. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

C13  
5

**TRANSPORTATION:**

TR1: Anderson Lane, Burnet Road, Justin Lane, and Lamar Boulevard are classified arterials in the Austin Metropolitan Area Transportation Plan (AMATP). Additional right-of-way may be required in accordance with the AMATP during the Site Plan application process. The adopted AMATP is available online at <http://www.ci.austin.tx.us/transplan/>.

TR2: Subchapter E of Section 25-2 of the City’s Land Development Code, Design Standards and Mixed Use, may apply during the site plan application process.

TR3: Along the zoning tracts:

- Burnet Road is classified as a Core Transit Corridor;
- Lamar Boulevard classified as a Urban roadway and identified as a Future Core Transit Corridor; and
- Unless identified above, streets are classified as Urban Roadways.

---

The Transportation Review Section has reviewed the Traffic Impact Analysis (TIA) addendum for the Crestview Station Development dated September 14, 2011 by Karan Khosla, P.E. of HDR Engineering, Inc. This TIA update was provided in support of a rezoning application to revise the propose land uses and to add a limited access (right-in, right-out) driveway connection to Morrow Street.

Staff recommends that access to Morrow Street should be limited to emergency, pedestrian and bicycle access because:

1. The existing traffic on Morrow Street exceeds the desirable operating levels specified in the Land Development Code §25-6-116;
2. There are existing traffic calming devises on Morrow Street to address existing operational issues;
3. Additional traffic calming measures are being discussed in conjunction with the Crestview Neighborhood Traffic Calming Plan; and
4. The additional driveway connection may increase traffic on Morrow Street and be contrary to existing and proposed traffic calming efforts.

## **BACKGROUND**

The studied site is identified as Tract 160 in Zoning Ordinance No. 040415-50. Tract 160 is bounded by Morrow Street, North Lamar Boulevard and the Capital Metro commuter rail right-of-way. The site includes the existing Optimist Club baseball fields along Morrow Street, the commercial and multi-family development along Lamar Boulevard, and the residential uses proposed in this rezoning tract. The ordinance limits the traffic generated by Tract 160 onto Morrow to 1,000 trips per day.

The TIA was originally prepared in support of a site plan application for Crestview Station site in 2005. In 2005, the proposed mixed-use development generated an estimated 21,186 unadjusted trips per day and 13,022 trips per day after adjusting for pass-by, internal capture and transit trip reductions. The TIA was amended in 2007 in support of a site plan application that revise the land uses assumed in the 2005 TIA. The 2007 development proposal generated an estimated 13,940 unadjusted trips per day and 9,612 trips per day after adjusting for pass-by, internal capture and transit trip reductions. No new site access to Morrow Street was proposed in either of the previous development plans.

In 2004, the site was rezoned to Limited Industrial, Planned Development Area, Neighborhood Plan Combining District (LI-PDA-NP). In 2008, except for the 14.448-acre property for the baseball fields, the property was rezoned to Transit Oriented Development-Neighborhood Plan Combining District

(TOD-NP). The 14.448-acre property, consisting of the baseball fields, continues to be zoned LI-PDA-NP.

**TRIP GENERATION**

The Crestview Station Residential site is a 32.631-acres tract of land in the Crestview Station site. The TIA addendum for the project was prepared by Karan Khosla, P.E., HDR Engineering, Inc. in September of 2011.

The proposed development consists of the following land uses:

- 104 dwelling units Single Family Residential
- 200 dwelling units Condominium/Town Homes
- 1,059 dwelling units Multifamily Apartments
- 22,200 square feet Shopping Center
- 31,200 square feet General Office
- 9,000 square feet High Turnover Restaurant
- 1 dwelling unit Heritage Home
- 5 Baseball Fields

Based on the standard trip generation rates established by the Institute of Transportation Engineers (ITE), the development will generate approximately 13,457 unadjusted average daily trips (ADT). Peak hour trip generation rates were established in 2008 base on the average of the peak hour trips and the square footages of the individual uses.

Tables 1 and 2, below, show the unadjusted and adjusted trip generation by land use for the proposed development:

LAND USE	ITE Land Use Code	Size	ADT	
			Unadjusted	Adjusted
Single Family Residential	210	104 DU	1,162	930
Condos/Town Homes	230	200 DU	1,021	814

**EXISTING AND PLANNED TRANSPORTATION SYSTEM**

**US 183** – US 183 is a six-lane freeway with frontage roads in each direction.. According to the 2025 Austin Metropolitan Area Transportation Plan (AMATP), a FWY 6 (6 lane, freeway) cross section is proposed on US 183 by 2025. The Austin Metropolitan Area Transportation Plan calls for 400 feet of right-of-way to accommodate the proposed roadway section. According to annual average daily traffic counts (AADT) collected by the Texas Department of Transportation (TxDOT) in 2010, US 183 carries approximately 152,000 vehicles per day (vpd). The AADT count indicates the typical traffic on the roadway during a normal workday of a given week. According to the Austin 2009 Bicycle Plan, no bicycle facilities are existing or recommended on US 183.

**Lamar Boulevard** – Lamar Boulevard is a City of Austin maintained roadway and is classified as an arterial. Currently, Lamar is a six-lane divided arterial between US 183 and Airport Boulevard. According to the 2025 Austin Metropolitan Area Transportation Plan (AMATP), a MAD 6 (6 lane, major arterial divided) cross section is proposed on Lamar Boulevard by 2025. The Austin Metropolitan Area Transportation Plan calls for 140 feet of right-of-way to accommodate the proposed roadway section. According to saturation traffic counts collected by the Texas Department of Transportation (TxDOT) in 2010, Lamar Boulevard carries approximately 40,240 vpd. Lamar Boulevard is an existing and proposed bicycle route (Route # 43) according to the Austin 2009 Bicycle Plan. Shared lanes are the existing bicycle facility and bike lanes are the recommended bicycle facility on Lamar Boulevard.

**Airport Boulevard** – Airport Boulevard is a City of Austin maintained roadway and is classified as an arterial. Currently, Airport is a four-lane divided arterial between Lamar Boulevard and RM 2222. According to the 2025 Austin Metropolitan Area Transportation Plan (AMATP), a MAD 6 (6 lane, major arterial divided) cross section is proposed on Airport Boulevard by 2025. The Austin Metropolitan Area Transportation Plan calls for 140 feet of right-of-way to accommodate the proposed roadway section. According to saturation traffic counts collected by the Texas Department of Transportation (TxDOT) in 2010, Airport Boulevard carries approximately 19,180 vpd. According to the Austin 2009 Bicycle Plan Update approved by Austin City Council in June, 2009, bicycle facilities are existing and proposed on Airport Boulevard. The existing and recommend facility are bike lanes and identified as route #39.

**St. John's Avenue** – St. John's Avenue is a City of Austin maintained roadway and is classified as an arterial. Currently, St. John's is a four-lane minor arterial between Lamar Boulevard and IH 35.

C13  
9

According to the 2025 Austin Metropolitan Area Transportation Plan (AMATP), a MNR 4 (4 lane, minor arterial) cross section is proposed on St. John's Avenue by 2025. According to saturation traffic counts collected by the Texas Department of Transportation (TxDOT) in 2010, Airport Boulevard carries approximately 6,600 vpd. According to the Austin 2009 Bicycle Plan Update approved by Austin City Council in June, 2009, bicycle facilities are existing and proposed on Airport Boulevard. The existing bicycle facility is shared lanes, identified as route #18. The recommend facility is bike lanes in each direction.

**Morrow Street** – Morrow Street is a two-lane roadway with a 28-foot pavement width and a 50-foot wide right-of way in the vicinity of the site. According to the Austin 2009 Bicycle Plan Update approved by Austin City Council in June, 2009, bicycle facilities are existing and proposed on Morrow Street. The existing bicycle facility is a shared lane, identified as route #20. The recommend facility is a bike lane in each direction.

**Capital Metro/City of Austin Railroad Right-of-Way** – The Capital Metro/City of Austin railroad right of way forms the wester boundary of the site. According to the Austin 2009 Bicycle Plan Update approved by Austin City Council in June, 2009, bicycle facilities proposed along the rail right-of-way. The recommend facility is a multi-use path.

### **NEIGHBORHOOD TRAFFIC ANALYSIS**

Sec. 25-6-114 of the Land Development Code defines a residential street as any street along which 50 percent or more of the frontage within 1,500 feet is zoned for SF-5 or more restrictive uses. Based on current zoning, Morrow Street is defined as a residential street. A neighborhood traffic analysis is required if the project has access to a residential street and is projected to generate more than 300 vehicles per day. In order to determine the impact on these residential streets and the neighborhood, 24-hour traffic counts were conducted in August 2011 for Morrow Street. The following is the result of the neighborhood traffic analysis.

Morrow Street is a two-lane roadway with a 28-foot pavement width and a 50-foot wide right-of way in the vicinity of the site. According to the Austin 2009 Bicycle Plan Update approved by Austin City Council in June, 2009, bicycle facilities are existing and proposed on Morrow Street. The existing bicycle facility is a shared lane, identified as route #20. The recommend facility is a bike lane in each direction.

The Land Development Code specifies desirable operating levels for residential streets in section 25-6-116. A residential local or collector street with a pavement width less than 30' should carry 1,200 vehicles per day or less. According to traffic counts collected on August 25<sup>th</sup>, 2011, the existing traffic volume is 1,611 vehicles per day (vpd) on Morrow Street, west of Lamar Boulevard.

The expected project build out is 2014. For the project build-out, the forecasted traffic volume with site traffic will be 2,478 vpd or 1,278 vpd greater than the undesirable operating level. Site traffic (excluding ball fields) will comprise 456 vpd or 18.4% of the total daily traffic on Morrow Street for 2014 traffic conditions.

### **ZONING ORDINANCE CONDITION**

Zoning Ordinance No. 040415-50 limits the traffic generated by Tract 160 onto Morrow to 1,000 trips per day. Tract 160 includes the existing Optimist Club baseball fields along Morrow Street, the commercial and multi-family development along Lamar Boulevard, and the residential uses proposed in this rezoning tract. Assuming the limited access (right-in, right-out) driveway, and the proposed land uses, Tract 160 will generate 742 trips per day on Morrow Street.

C13  
10

## **RECOMMENDATIONS**

- 1) Recommendation: Access to Morrow Street should be limited to emergency, pedestrian and bicycle access.
- 2) Recommendation: A public access easement should be dedicated for the proposed multi-use path along the Capital Metro/City of Austin rail right-of-way. The applicant should coordinate with the City of Austin Neighborhood Connectivity Department for easement details.
- 3) For Information: Three copies of the final version of the TIA Update incorporating all corrections and additions must be submitted prior to final reading of the zoning case.
- 4) For Information: According to the Land Development Code, the City Council may approve a zoning application if the council determines that the applicant has satisfactorily mitigated adverse traffic effects or the additional traffic from the project results in an insignificant impact on the residential street.
- 5) Development of this property should be limited to uses and intensities which will not exceed or vary from the projected traffic conditions assumed in the TIA Update, including peak hour trip generations, traffic distribution, roadway conditions, and other traffic related characteristics.

If you have any questions or require additional information, please contact me at 974-2788.

**PART 3.** The Property is subject to Ordinance No. 040401-32B that established the Crestview neighborhood plan combining district.

**PART 4.** Tract 160a may be developed as a residential infill special use as set forth in Section 25-2-1532 through 25-2-1534 of the Code.

C13  
T6

**PART 5.** Tract 160a may be developed as a neighborhood urban center special use as set forth in Sections 25-2-1521 through 25-2-1524 of the Code.

**PART 6.** Development of the Property identified as Tracts 160a, 160b-1, 160-2, and 160c located within the boundaries of the planned development area (PDA) combining district established by this ordinance ("PDA Property") is subject to the use and site development regulations set forth in this part. Use and site development regulations expressly provided in this part supercede conflicting regulations in the City Code.

1. Development of the PDA Property shall comply with Section 25-2-648 (*Planned Development Area Performance Standards*) of the City Code.
2. Except as provided in Sections 3 to 7, all permitted and conditional limited industrial services (LI) uses are permitted and conditional uses of Tracts 160a, 160b-1, 160b-2, and 160c.
3. The following uses are additional permitted uses of Tract 160a:

- |   |  |
|---|--|
| Administrative services                 | Park and recreation services (special) |
| Bed and breakfast residential (Group 1) | Research assembly services             |
| Bed and breakfast residential (Group 2) | Research warehousing services          |
| Consumer repair services                | Retirement housing (large site)        |
| Convalescent services                   | Retirement housing (small site)        |
| Multifamily residential                 | Single family residential              |
| Pet services                            | Townhouse residential                  |
| Park and recreation services (general)  | Urban farm                             |
| Condominium residential                 | Two-family residential                 |
| Family home                             |  |

4. The following uses are prohibited uses of Tracts 160a, 160b-1, 160b-2, and 160c:

- |  |                       |
|--|-----------------------|
| Agricultural sales and services        | Kennels               |
| Automotive repair services             | Liquor sales          |
| Automotive sales                       | Monument retail sales |
| Automotive washing (of any type)       | Outdoor entertainment |

| Group home, Class II             |                               |

7. The following uses are conditional uses of Tracts 160b-1 and 160c:

- |                                   |                             |
|-----------------------------------|-----------------------------|
| College and university facilities | Cultural services           |
| Day care services (commercial)    | Day care services (general) |
| Local utility services            | Safety services             |

8. Calculations for zoning impervious cover, building coverage, floor to area ratios, parking, landscaping, and required open space are based on the cumulative gross site area of the PDA Property.

9. Except as provided in Sections 11 to 14, the CS site development standards apply to Tract 160a.

10. Except as provided in Sections 11 and 12, the SF-6 site development standards apply to Tracts 160b-1, 160b-2, and 160c.

11. The site development standards in Schedule 1, Column A, set forth in Section 24, apply to a single family residential use.

12. The site development standards in Schedule 1, Column B, set forth in Section 24, apply to a townhouse residential use or condominium residential use.

13. The uses identified in this section are subject to Section 14.

- |                         |                                 |
|-------------------------|---------------------------------|
| Congregate living       | Retirement housing (small site) |
| Convalescent services   | Retirement housing (large site) |
| Multifamily residential |                                 |

14. Except as provided in Section 15, development of the uses in Section 13 shall comply with the site development standards in Schedule 1, Column C set forth in Section 24.

15. This section applies to a combination use building.

A. A combination use building is a building that contains both a commercial use and (1) a residential use, or (2) a congregate living use or a convalescent services use.

B. A combination use building must comply with the following criteria.

1. The building must contain residential units above the ground floor.

2. The square footage of the residential units on the ground floor may not exceed 50 percent of the gross floor area of the ground floor.

3. The square footage of the non-residential units in the above-ground floor area may not exceed 50 percent of the gross floor area of the above-ground floor area.

C. The CS site development standards apply to a combination use building.

16. The maximum density is 1,472 dwelling units for a residential use identified in this section.

Bed and breakfast residential (Group 1)  
Condominium residential  
Multifamily residential  
Retirement housing (large site)  
Single family residential  
Townhouse residential

Bed and breakfast residential (Group 2)  
Group residential  
Retirement housing (small site)  
Single family attached residential  
Small lot single family residential  
Two-family residential

17. The uses identified in this section are subject to Sections 18 to 21.

Basic industry  
Light manufacturing

General warehousing and distribution

18. A building setback in Section 19 shall not apply to a use or zoning district identified in Section 19 that is located east of Lamar Boulevard or on Tracts 147, 148, and 149.

19. A 200-foot wide building setback shall be established between a use identified in Section 17 and:
  - A. A use identified in Section 13.
  - B. A residential use including a combination use building.
  - C. A multifamily residence highest density (MF-6) district or less restrictive zoning district.
20. Notwithstanding Sections 18 and 19, development of the Property is subject to Chapter 25-2, Subchapter C, Article 10 (*Compatibility Standards*).
21. A use identified in Section 17 is a prohibited use of the property located in the vicinity of Banyon Street as shown in Exhibit "D".
22. A minimum 17.4 acres of the Property shall be open space. Open space may include a community recreation (private or public) use. Required setback areas may not be included as required open space except for the setback areas within a community recreation (private or public) use.
23. Open space required under Section 22 will be credited toward parkland dedication required for a residential subdivision within the Property, in accordance with Chapter 25-4, Article 3, Division 5 of the Code. An 80 percent credit will be allowed for privately owned and maintained park and recreational facilities, and a 100 percent credit will be allowed for land dedicated as parkland to the City.

- 25. A site plan or building permit for development on Tract 160 may not be approved, released, or issued, if the completed development or uses of Tract 160, considered cumulatively with all existing or previously authorized development or uses, generate traffic onto Morrow Street that exceeds 1,000 trips per day.
- 26. Except as specifically provided under this ordinance, the PDA Property shall be developed and used in accordance with the regulations established for the respective base districts and other applicable requirements of the City Code.

**ORDINANCE NO. 20081211-086**

**AN ORDINANCE REZONING AND AMENDING THE ZONING MAP TO CHANGE THE ZONING DISTRICTS FROM THEIR CURRENT DESIGNATIONS TO TRANSIT ORIENTED DEVELOPMENT (TOD) DISTRICT ON CERTAIN PROPERTY IN THE CRESTVIEW/WOOTEN AND BRENTWOOD/HIGHLAND NEIGHBORHOOD PLAN COMBINING DISTRICTS; AND ADOPTING THE LAMAR BLVD./JUSTIN LANE TOD DISTRICT STATION AREA PLAN AND REGULATING PLAN, INCLUDING MODIFICATIONS TO TITLE 25 OF THE CITY CODE.**

**BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:**

**PART 1.** The zoning map established by Section 25-2-191 of the City Code is amended to change the base zoning districts to transit oriented development (TOD) district on all those certain tracts of land (*the "Property"*) described in Zoning Case No. C14-2008-0030, on file at the Neighborhood Planning and Zoning Department, as follows:

Approximately 195 acres of land in the City of Austin, Travis County, Texas, more particularly described and identified in the tract map attached as Exhibit "A",

located in portions of the Crestwood/Wooten and Brentwood/highland neighborhood planning areas, locally known as the area generally bounded by Morrow St. on the north; Guadalupe St., Burns St., and the back property line of properties along Lamar Blvd. on the east; Denson Dr. and just north of Romeria Dr. on the south; and Wild St., the Northwest and Austin Railroad, and Ryan Dr. on the west, in the City of Austin, Travis County, Texas, and identified in the tract table attached as Exhibit "B" and the map attached as Exhibit "C" (*the "Zoning Map"*).

**PART 2.** The zoning districts for the Property are changed:

- (A) from the current base districts to transit oriented development (TOD) district; and
- (B) to remove all current combining district designations, except that each district shall retain its current neighborhood plan (NP) combining district designation.

**PART 3.** The "Lamar/Justin TOD Station Area Plan" attached as Exhibit "D" and incorporated into this ordinance is adopted as the station area plan for the Property under

C13/29

Section 25-2-766.22(A) (*Adoption of Station Area Plan*) of the City Code, including the "Regulating Plan for the Lamar Blvd./Justin Lane TOD Station Area Plan" attached as Exhibit "E" (the "*Regulating Plan*") and incorporated into this ordinance.

**PART 4.** Under Section 25-2-766.22 (*Adoption of Station Area Plan*) of the City Code:

- (A) the Regulating Plan establishes the zoning, site development, and design regulations applicable to the Property;
- (B) the boundaries of the Lamar Blvd./Justin Lane TOD shown in Chapter 25-2 (*Zoning*), Appendix D, Exhibit 4, of the City Code are modified to be the boundaries shown in Exhibit "B;"
- (C) amendments to the Regulating Plan are subject to the requirements of Section 25-1-502 (*Amendment; Review*) of the City for amendments of Title 25 of the City Code instead of the requirements for notice of rezoning under Section 25-2-261 (*Notice of Application Filing*) of the City Code; and
- (D) the density standards in Article 2 (*Land Use and Building Density*) and the site development standards in Section 4.2 (*General Development Standards*) of the Regulating Plan are the only parts of the Regulating Plan that are requirements of Chapter 25-2 for purposes of Section 25-2-472 (*Board of Adjustment Variance Authority*) of the City Code.

**PART 5.** The changes made by this ordinance take effect on March 1, 2009.

**PART 6.** This ordinance takes effect on December 22, 2008.

1. The portion of the project where new buildings are constructed or existing buildings are expanded must comply with Section 4.6 (Exterior Lighting), Section 4.7 (Screening of Equipment and Utilities), and the applicable sidewalk requirements in Section 3.3 (Sidewalk Standards).
2. The portion of the project where new buildings, exterior additions to existing buildings, and remodeled facades are constructed must comply with the requirements of Article 5 (Building Design Standards).
3. Subject to the requirements in Paragraphs a-c of this subsection, all new buildings and additions to existing buildings must comply with the applicable building placement requirements in Section 4.4:
  - a. Full compliance with building placement requirements is required unless the Director determines that it cannot be achieved due to:
    - (i) The location of existing buildings or other improvements to be retained on the site;
    - (ii) The size or magnitude of the proposed addition;
    - (iii) The nature of a use to be included in a proposed addition to an existing building that limits placement of that use on the site;
    - (iv) Topography, protected trees, or critical environmental features; or
    - (v) The location of water quality or detention facilities.
  - b. An applicant must carry the burden of establishing that full compliance with building placement requirements cannot be achieved under the criteria in Paragraph a. and must provide all information requested by the Director.
  - c. If the Director determines that full compliance cannot be achieved based on the criteria in Paragraph a, an applicant must comply with the building placement requirements to the extent possible.

#### 1.2.4. Exemption from Subchapter E of the Land Development Code

For the area within the Lamar/Justin TOD District (Figure 1-1), this Document shall control and supersedes all standards and regulations in Chapter 25-2 Document E: Design Standards and Mixed Use.

#### 1.2.5. Conflicting Provisions

- A. If the provisions of this Document are inconsistent with provisions found in other adopted codes, ordinances, or regulations of the City of Austin not listed in Subsection B below, this Document shall control unless otherwise expressly provided.
- B. The following provisions supersede the requirement of this Document to the extent of conflict:
  1. The Planned Development Area (PDA) regulations in Ordinance 040415-50 continue to apply to property formerly known as "The Huntsman Tract", currently referred to as the "Crestview Station" or "Midtown Commons" development, and as identified in Figure 1.4.

Figure 1-4: The area subject to PDA regulations per Ordinance #040415-50.

**1.2.6. Accessibility**

Accessibility, integration and inclusion of people with disabilities are fundamental components of our vision for the future of the City of Austin. This Document shall not supersede any applicable state or federal accessibility statutes and regulations. Administration and enforcement of this Document shall comply with all such statutes and regulations.
