Additional Backup Information					

In November, the Capital Area Council of Governments (CAPCOG) transferred \$100,000 to the City of Austin to be used for the purchase of hardware and related services, support, and training to replace the 9-1-1 recording system at the Combined Transportation Emergency Communication Center (CTECC). This \$100,000 transfer was made under a Public Safety Answer Point Maintenance, Equipment Upgrade, and Training Interlocal Agreement with CAPCOG. Council authorized this interlocal agreement on August 20, 2009. The funding will supplement CAPCOG funds in the amount of \$985,550 transferred to the City from Travis County under an agreement also authorized by Council on June 23, 2011. The total amount of \$1,085,000 is required to replace the outmoded 9-1-1 recording system that serves the City and County public safety answer points at CTECC.
