Additional Backup Information

The Austin Water Utility (AWU) has identified an existing wastewater line underneath the Twin Liquors distribution center located at 5639 Airport Blvd. that is in poor condition. This project will abandon in place the existing line and install a new line within a new easement, which will allow direct access for future maintenance. There is a \$12,000 allowance included in the bid to allow for the resolution of a known gas line conflict.

The project team has met with and provided ongoing communication with all property owners who will potentially be affected by the construction of the wastewater system. Communications with these groups will continue throughout the construction phase.

The contract allows 42 calendar days for completion of this project. Construction is anticipated to start in February 2012 and continue until April 2012.

This project is located within zip code 78752 and is managed by the Public Works Department.
