Additional Backup Information					
In October 2010, Carma Easton, Inc. submitted petitions to the City for consent to create five municipal utility districts ("MUDs") known as the Pilot Knob MUDs 1-5.					
In April 2011 City Council approved a resolution consenting to special legislation that would create the MUDs subject to criteria that would protect the City's interests. The City's MUD policy, adopted in February 2011, provides for consideration of extraordinary public benefits, superior development, and enhancement of other City interests when negotiating the consent agreement.					
In May 2011, the Texas Legislature created the Pilot Knob Municipal Utility Districts 1-5 conditioned upon the City entering into a consent agreement with each MUD no later than September 1, 2012. Each MUD's enabling legislation also allows continuation of the district as a "limited district" after full-purpose annexation by the City if the district and the City enter into a strategic partnership agreement ("SPA"). The City is requiring a SPA as a condition of its consent. If the City does not consent to the creation of the district or enter into such agreements as are required by the terms of the City's consent ordinance, the MUDs will be dissolved on September 1, 2012.					

These MUDs include approximately 2,214 acres located in southeastern Travis County at a designated center and transportation corridor as indicated in the draft Imagine Austin Growth Concept Map within the City's extraterritorial jurisdiction. As part of the agreement consenting to the creation of the MUDs, the City would defer full purpose annexation of the MUDs for approximately 25 years or longer but would annex the MUDs for limited purposes shortly after giving consent to MUD creation. In addition, the developer would apply for Planned Unit Development (PUD) zoning. Proposed future development includes a mix of land uses typical in suburban developments as well as a more dense town center. The City would be the retail service provider for water and wastewater services and solid waste services.

Following staff and board and commission review, the City Council must conduct a public hearing and consider the request for city consent to the creation of the MUDs. If approved, Council must conduct two additional public hearings regarding a strategic partnership agreement ("SPA") and adopt the SPA after each MUD has adopted the SPA.
