Additional Backup Information

Chapter 26 of the Texas Parks and Wildlife Code provides that the use of parkland for non-park purposes may be approved upon a finding that there is no feasible and prudent alternative to the use of this land.

Austin Energy is proposing to relocate existing electric transmission line located within Seaholm through parkland to serve the Seaholm District Redevelopment and the new Central Library.

Approval of the use of parkland is made on the condition that all restoration is completed in accordance with the Standard Specifications and Construction Standards of the City of Austin and the Parks and Recreation Department's "Construction in Parks Specifications". Austin Energy is required to pay all costs associated with the restoration and tree mitigation as part of the site restoration process.

There is no feasible and prudent alternative to the use of the dedicated parkland, and all reasonable planning to

minimize harm to such lands has occurred. The dates of public notification in the Austin American-Statesman are January 15, 22 and 29, 2012.
