Additional Backup Information

This contract will provide for the purchase of an estimated 2,500 tons per year of dolomite limestone crushed aggregate for the Public Works and Aviation Department on an as-needed basis. This product minimizes ice/snow build-up on streets and eliminates the use of salt or sand during light snowfall or ice build-up. This supply agreement will help to ensure that dolomite limestone is readily available for required repairs and maintenance. The use of the dolomite limestone may not eliminate the need for salt or sand in extremely inclement weather conditions.
