#### **ZONING CHANGE REVIEW SHEET**

<u>CASE</u>: C14-2012-0019 (James Martin) <u>Z.A.P. DATE</u>: March 20, 2012

ADDRESS: 10812 North FM 620 Road

**APPLICANT:** James Martin

**ZONING FROM:** SF-2 **TO:** GR **AREA:** 0.711 acres (30,971 sq. ft.)

# **SUMMARY STAFF RECOMMENDATION:**

The staff's recommendation is to grant GR-CO, Community Commercial-Conditional Overlay District, zoning. The conditional overlay will limit the development intensity for the site to less than 2,000 vehicle trips per day.

# **ZONING AND PLATTING COMMISSION RECOMMENDATION:**

3/20/12: Approved staff's recommendation of GR-CO zoning by consent (7-0); P. Seeger-1<sup>st</sup>, C. Banks-2<sup>nd</sup>.

## **DEPARTMENT COMMENTS:**

The property in question is developed with a single-family residence. It is surrounded by commercial and office uses to the north (Bancer's Marine Boat Sales), to the south (Magnum Custom Trailers, Inc.), to the east (Qualtech Automotive Repair & Services, 620 Oaks Office Park), and west (Bancer's Marine Boat Sales). All of the surrounding uses are currently located in the County. The applicant is requesting GR, Community Commercial District, zoning for this tract of land to utilize the property for commercial uses.

The staff recommends GR-CO zoning at this location because the site under consideration meets the intent of the Community Commercial District as it will allow for office or other commercial uses that will serve neighborhood and community needs and that are generally is accessible from major traffic ways. This tract of land fronts onto and takes access to F.M. 620 Road, a major arterial roadway and it is located adjacent to existing commercial uses on all sides. The proposed zoning will permit the applicant to redevelop the property with office or commercial uses.

The applicant agrees with the staff's recommendation.

## **EXISTING ZONING AND LAND USES:**

	ZONING	LAND USES
Site	SF-2	Single-Family Residence
North	County	Automotive Sales (Bancer's Marine Boat Sales)
South	County	General Retail Sales-General (Magnum Custom Trailers, Inc.)
East	County	Automotive Repair (Qualtech Automotive Repair & Services), Office, Day Care Services (620 Oaks Office Park: Travis County Farm Bureau, Offices, Little People's Academy)
West	County	Automotive Sales (Bancer's Marine Boat Sales)

**AREA STUDY:** N/A

TIA: Waived

**WATERSHED**: Bull Creek

**DESIRED DEVELOPMENT ZONE:** No

**CAPITOL VIEW CORRIDOR: N/A** 

HILL COUNTRY ROADWAY: Yes

SUBJECT TRACT
PENDING CASE
ZONING BOUNDARY

ZONING CASE#: C14-2012-0019

This product is for informational purposes and may not have been prepared for or be suitable for legal, engineering, or surveying purposes. It does not represent an on-the-ground survey and represents only the approximate relative location of property boundaries.

This product has been produced by CTM for the sole purpose of geographic reference. No warranty is made by the City of Austin regarding specific accuracy or completeness

#### STAFF RECOMMENDATION

The staff's recommendation is to grant GR-CO, Community Commercial-Conditional Overlay District, zoning. The conditional overlay will limit the development intensity for the site to less than 2,000 vehicle trips per day.

#### BASIS FOR RECOMMENDATION

1. The proposed zoning should be consistent with the purpose statement of the district sought.

Community commercial (GR) district is the designation for an office or other commercial use that serves neighborhood and community needs and that generally is accessible from major traffic ways.

This tract of land fronts and takes access to a North FM 620 Road, a major arterial roadway.

2. The proposed zoning should promote consistency and orderly planning.

The proposed rezoning will be compatible with surrounding land uses because the property is surrounded by commercial uses to the north (Bancer's Marine Boat Sales), to the south (Magnum Custom Trailers, Inc.), to the east (Qualtech Automotive Repair & Services, 620 Oaks Office Park), and west (Bancer's Marine Boat Sales).

3. The proposed zoning should allow for a reasonable use of the property.

The proposed GR-CO district zoning at this location will allow the applicant to develop commercial uses on the site to serve the public along a major arterial roadway within the city, North FM 620 Road.

#### **EXISTING CONDITIONS**

### **Site Characteristics**

The site in question is currently developed with a single-family residence. It is surrounded by commercial and office uses to the north (Bancer's Marine Boat Sales), to the south (Magnum Custom Trailers, Inc.), to the east (Qualtech Automotive Repair & Services, 620 Oaks Office Park), and west (Bancer's Marine Boat Sales).

## **Environmental**

According to current maps this site lies in the Edwards Aquifer Recharge Zone. This site lies on or very close to the divide between the Lake Travis (Water Supply Rural) and the Bull Creek (Water Supply Suburban) Watersheds, both of which fall within the drinking water protection zone. A geological and / or topographical analysis of the site may be needed to determine the exact boundaries of the aforementioned watersheds.

Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact

the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, no information has been provided as to whether this property has any preexisting approvals which would preempt current water quality or Code regulations.

According to flood plain maps, there is no flood plain within the project area.

The site is located within the endangered species survey area and must comply with the requirements of Chapter 25-8 Endangered Species in conjunction with subdivision and/or site plan process.

Under current watershed regulations, development or redevelopment on this site will be subject to providing structural sedimentation and filtration basins with increased capture volume and 2 year detention.

#### Hill Country Roadway

The site is located within 1,000 feet RM 620 and within a Hill Country Roadway Corridor. The site is located within the moderate intensity zone of 620. The site may be developed with the following maximum floor-to-area ratio (FAR):

<u>Slope</u>	<u>Maximum FAR</u>
0-15%	.25
15-25%	.10
25-35%	.05

Except for clearing necessary to provide utilities or site access, a 100 foot vegetative buffer will be required along 620. At least 40% of the site (excluding dedicated right-of-way) must be left in a natural state. The allowable height is as follows: Within 200 feet of 620 the maximum height is 28 feet, and beyond 200 feet the maximum height is 40 feet.

Prior to the issuance of a building permit for the proposed use, a site plan must be approved by the Zoning and Platting Commission

# **Impervious Cover**

The maximum impervious cover allowed by the GR zoning district would be 90%. However, because the watershed impervious cover is more restrictive than the zoning district's allowable impervious cover, the impervious cover is limited by the watershed regulations.

Following are the comments for each watershed classification:

## Water Supply Rural

Under the current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

Development Classification	% of Net Site Area	% NSA with Transfers	Allowable Density
One or Two Family Residential	n/a	n/a	1 unit/2 acres net site area
Multifamily Residential	20%	25%	n/a
Commercial	20%	25%	n/a

Single family or duplex development within a Water Quality Transition Zone may not exceed a density of one unit per three acres, exclusive of land within a 100-year floodplain, and must have a minimum lot size of 2 acres.

#### Water Supply Suburban

Under the current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

Development Classification	% of Net Site Area	% NSA with Transfers
One or Two Family Residential	30%	40%
Multifamily Residential	40%	55%
Commercial	40%	55%

Note: The most restrictive impervious cover limit applies.

#### Site Plan

This site is located within a Hill Country Roadway Corridor Overlay, and the site plan will, therefore, require review and approval by the Land Use Commission. For Hill Country site development regulations, refer to Sections 25-2-1104 to 25-2-1105, 25-2-1021, and Environmental Criteria Manual 2.7.0.

The site lies within a MODERATE Intensity Zone of the Hill Country Roadway Corridor. All non-residential development within this zone shall be subject to a maximum Floor-to-Area Ratio of 0.25 on 0-15% slopes, 0.10 on 15-25% slopes and 0.05 on 25-35% slopes, excluding parking structures and atriums. Refer to Section 25-2-1122(A).

The site is located within a Scenic Roadway Overlay as per LDC Section 25-10-6, and will be subject to those sign regulations.

Upon rezoning to GR, this site will be subject to Subchapter E: Design Standards and Mixed Use.

### **Stormwater Detention**

At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable

flooding of other property. Any increase in stormwater runoff will be mitigated through on-site stormwater detention ponds, or participation in the City of Austin Regional Stormwater Management Program if available.

# **Transportation**

No additional right-of-way is required at this time.

A traffic impact analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 vehicle trips per day over the current land use [LDC, 25-6-117].

FM 620 is classified in the Bicycle Plan as Bike Route No. 401.

Capital Metro bus service (Route No. 122) is available along FM 620.

There are no existing sidewalks along FM 620.

**Existing Street Characteristics:** 

Name	ROW	Pavement	Classification	ADT
FM 620	Varies	2 @ 24'	Major Arterial (MAD4)	38,000

## Water and Wastewater

The landowner intends to serve the property with an individual well and on-site sewage facility. The landowner must obtain approval from Travis County for wells and on-site sewage facilities for any changes in property usage.
