Additional Backup Information

The City and Travis County are currently designing a new four lane segment of Howard Lane between Cameron Road and State Highway 130. Construction is expected to begin in 2013.

During design it was determined that an existing Atmos Energy Corporation high pressure gas line conflicts with the proposed work in two locations within the City limits. This agreement will authorize the City to compensate Atmos Energy Corporation for the cost of relocating their gas line.

This project is located within zip code 78653 and is managed by the Public Works Department.
