Susan Walker, Liaison  
Board of Adjustment  
City of Austin

Board of Adjustment:

The Board of Directors (BoD) of West Austin Neighborhood Group (WANG) at its regularly scheduled monthly meeting on Monday 4 June 2012 voted to oppose the above referenced variance request. The applicant for the property owner was in attendance.

Our decision is based on our inability to discern a hardship that would necessitate a variance from the maximum amount of impervious coverage allowable under the Land Development Code. We did suggest to the applicant various alternatives to reduce the amount of impervious coverage such removing the center concrete of the driveway.

A representative of WANG will be in attendance at the hearing.
