

Austin Water Utility Wastewater Line Replacement

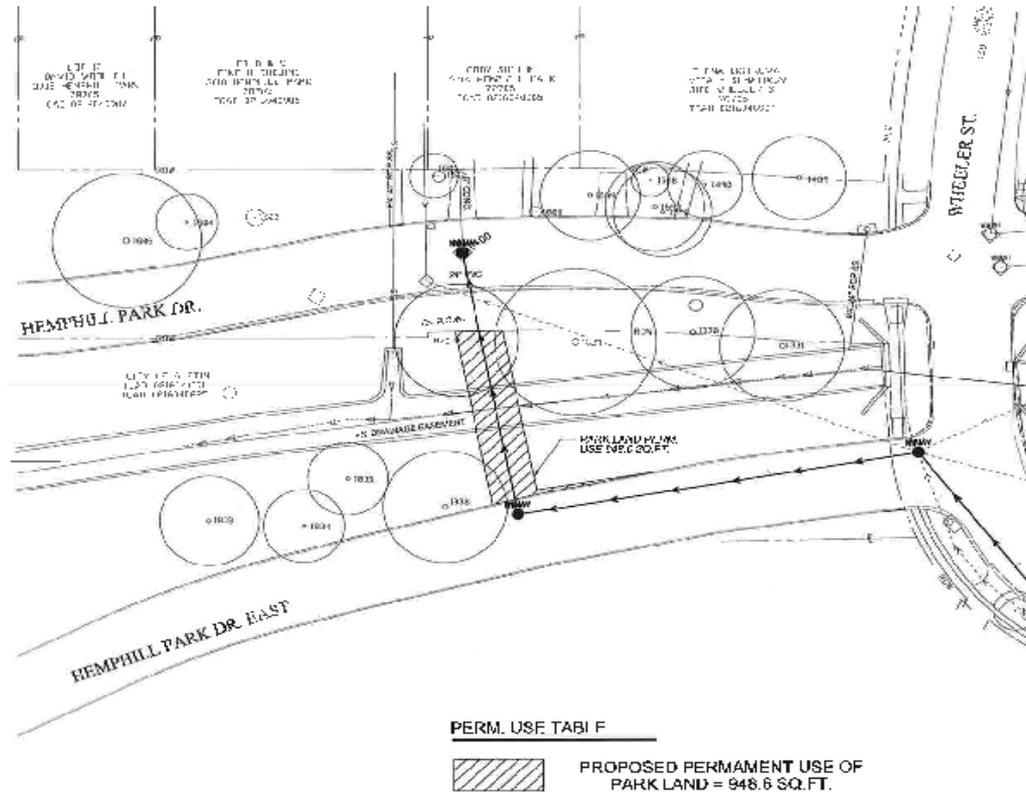

3014-3125 Hemphill Park Drive Project

Chapter 26 Application For Temporary & Permanent Use Of Park Land

Presenters: Roger Hickman, P.E. and Richard Fraser, E.I.T
**City of Austin Public Works Department, Engineering
Services Division.**

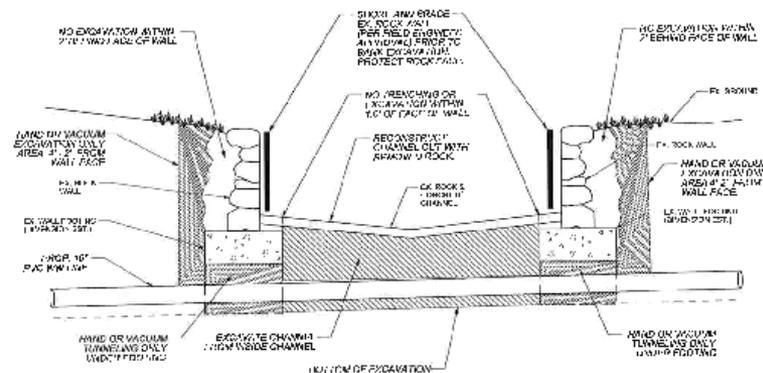

3014-3125 Hemphill Park Dr. Wastewater Project

- The new wastewater line will also cross under the park, but in a new location downstream.

3014-3125 Hemphill Park Dr. Wastewater Project

- Special precautions will be taken for excavation close to the rock walls of the drainage channel. The existing rock walls will not be cut. The new wastewater pipe will be placed under the walls in a hand dug tunnel.
- The channel bottom will be trenched to place the pipe and the trench will be repaired with rock and mortar.

3014-3125 Hemphill Park Dr. Wastewater Project

- **Existing missing parts of the drainage channel bottom, from Wheeler Street to the storm water outlet (approximately 165 linear feet) will be repaired with rock and mortar by this project as mitigation and payment for use of Park land.**
