

ORDINANCE NO. \_\_\_\_\_

**AN ORDINANCE REPEALING AND REPLACING CITY CODE CHAPTER 6-4  
RELATING TO WATER CONSERVATION; ESTABLISHING VIOLATIONS  
AND PENALTIES FOR VIOLATIONS.**

**BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:**

**PART 1. FINDINGS.**

The City Council finds that:

Given the potential for severe and frequent drought conditions in Central Texas, it is essential that water use policies balance the need to conserve water with the need to protect the City's urban landscape and tree canopy. Water conservation efforts, including policies for responsible outdoor water use, help maximize limited resources as population grows while ensuring supply for critical public health and safety needs including adequate supplies necessary for emergency fire fighting, fire suppression, and natural disaster or other emergency management or disaster response.

(A) The director may grant a variance from a requirement of this chapter if the director determines that special circumstances exist and that:

(1) strict compliance with the provisions at issue adversely affects the health, safety, welfare or sanitation of the public, the applicant, or the environment; or

(2) strict compliance with the provisions at issue substantially threatens the applicant's primary source of income, the applicant is employing all reasonable water conservation measures, and approval of the variance will not result in water waste.

(B) The director may not grant a variance from a requirement of this chapter based on an alleged adverse impact to the environment unless the applicant submits an environmental impact study, hydrological analysis, and additional data or documentation as required by the director to establish that the specific variance requested is necessary to avoid or mitigate a significant adverse impact on an endangered or listed protected plant, animal, or aquatic species or critical environmental feature present on the property or to maintain the traditional and natural character of a critical environmental feature.

(C) The director may grant a variance from a requirement of Section 6-4-15(*Water Conservation Stage*), Section 6-4-16 (*Water Conservation Stage One Regulations*), Section 6-4-17 (*Water Conservation Stage Two Regulations*), or Section 6-4-18 (*Water Conservation Stage Three Regulations*) only if the applicant establishes at least one of the following:

(1) an AWU Authorized Irrigation Inspector has determined that, due to its site-specific conditions, a site cannot be watered with an average coverage of 0.5 inches within the time limits prescribed by this chapter; and as applicable, a current irrigation system evaluation required pursuant to Section 6-4-10(A) (*Facilities Regulated*) is on file with Austin Water Utility; or

If the landscape installation is required in order to obtain a certificate of occupancy for a newly constructed single family home, the applicant shall provide a completed notice to the director on the form provided by Austin Water at least one full business day before the landscape is installed.

1 (E) A variance granted under Subsection 6-4-30(D)(*Variance*) is subject to and shall

13 *Conservation Stage*), Section 6-4-16 (*Water Conservation Stage One Regulations*),  
14 Section 6-4-17 (*Water Conservation Stage Two Regulations*) or Section 6-4-18 (*Water*  
15 *Conservation Stage Three Regulations*) for a newly installed landscape if

3 to provide information the director determines is necessary to evaluate the variance  
4 request. If the director approves a variance, the applicant shall keep a copy of the
