ADDRESS: 2016 JESSE E SEGOVIA ST

VARIANCE REQUESTED: The applicant has requested a variance from Section 25-2-1463 (C) (2) (a) in order to remodel an existing accessory building to create a Secondary Apartment use in an "SF-3-NP", Family Residence – Neighborhood Plan zoning district. The Land Development Code states that a secondary apartment must be located at least 15 feet to the rear of the principal structure. (Note: This variance was approved on 12-8-2008 under case # C15-2008-0145 and approved again on 4-11-2011 under case # C15-2010-0150 – variances have since expired.)

The applicant has requested a variance to decrease the minimum side yard setback requirement of Section 25-2-492 (D) from 5 feet to 1 foot in order to maintain a carport in an "SF-3-NP", Family Residence – Neighborhood Plan zoning district. (Note: This variance was approved on 4-11-11 under case #C15-2010-0150 but has since expired.)

The applicant has requested a variance to increase the maximum impervious coverage requirement of Section 25-2-492 (D) from 45% to 47% in order to maintain a single-family residence, secondary apartment and accessory structures in an "SF-3-NP", Family Residence – Neighborhood Plan zoning district.

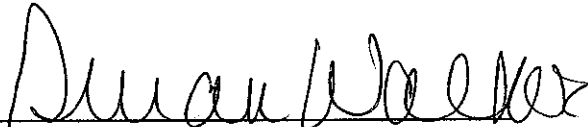

The applicant has requested a variance to decrease the minimum front street setback requirement of Section 25-2-492 (D) from 25 feet to 24 feet in order to maintain a Secondary Apartment use in an "SF-3-NP", Family Residence – Neighborhood Plan zoning district. (Note: This variance was approved on 4-11-11 under case #C15-2010-0150 but has since expired)

BOARD'S DECISION: The public hearing was closed on Board Member Bryan King motion to Deny, Board Member Michael Von Ohlen second on a 7-0 vote; **DENIED.**
(APPLICANT NO SHOW)

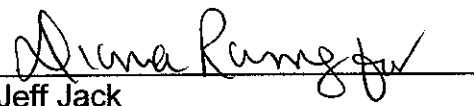

FINDING:

1. The Zoning regulations applicable to the property do not allow for a reasonable use because:
2. (a) The hardship for which the variance is requested is unique to the property in that:

(b) The hardship is not general to the area in which the property is located because:
3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

in a SF-3-NP district.
(zoning district)

The Austin Electric Utility Department (Austin Energy) enforces electric easements and the setback requirements set forth in the Austin Utility Code, Electric Criteria Manual and National Electric Safety Code. The Board of Adjustment considers variance to the Land Development Code, and a variance granted by the Board of Adjustment does not waive the requirements enforced by Austin Energy. Please contact Lena Lund with Austin Energy at 322-6587 before filing your application with the Board of Adjustment if your request is for a reduction in setbacks or height limits.

NOTE: The Board must determine the existence of, sufficiency of and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional support documents.

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

requested. (For example, topography, lot configuration, or any physical constraint that would limit the placement of the structure or prevent compliance with required site development regulations, etc.) A strictly financial or personal reason is not a valid hardship.

- b. Application must demonstrate to the Board why the hardship is not general to the area in which the property is located. Describe how the hardship relating to the site is different from other properties in the area.

Area Character:

Application must demonstrate to the Board how the variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the zoning regulations of the zoning district in which the property is located.

NOTE: Parking variances require additional findings to be made. The additional findings are listed on the application and must also be completed for submittal of the application.

BOARD'S DECISION: GRANTED 6-0

FINDING:

1. The Zoning regulations applicable to the property do not allow for a reasonable use because: house located to back of house due to topography of lot, existing 2nd floor structure and not adding square footage
2. (a) The hardship for which the variance is requested is unique to the property in that: structure is existing approx 20yrs due to topography of lot is reason where structure is built, 15 ft separation of 2 buildings already exists

(b) The hardship is not general to the area in which the property is located because: structure is approx 20yrs due to topography
3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because: home is existing since 1950s.

To whom it may concern:

This a brief explanation on why our house at 2016 Jesse E. Segovia is located towards the back of the lot and why we are wanting to convert an existing storage area into living quarters. The house was purchased in 1950 and it was located the same spot as today. The landscape on the lot was hilly with some sharp drop offs a lot of the other houses in the area also had the same type of landscape and were built towards the back of the lot. In 1972 the original house was burned down by an accidental house fire. The city of Austin allowed us to rebuild the house on the same spot as the original house. Our Intentions are to connect the storage area to the house so it appears as one unit. We are doing renovations to our house to improve it and expand our living quarters.

- Need to add description (your explanation) of the garage at front of property that is built within the front set back.
- Need to add description (your explanation) of the carport at side of property that is built in the side set back.

Questions

1) The original construction of the home was created opposite of current regulations - home created in the ~~backyard~~ rear.

2) A The original home was created in the rear, ~~due to~~ This house was the first erected in this area and due to sewage issues ~~home was~~ built in that ~~located~~ location

B New landowners are abiding by current standards of having the house closest to the street - At the time ^{this} home was built no such regulations existed.

3) The property will be ^{ed} construction properly ~~according~~ appropriately ~~it~~ maintained.

Why can't we move Tony's storage back @ 15 ft. which is city requirements 15 ft from property line?

We have no funds to redo it. We did not know it had to be certain feet from the property line. We thought since it was a small storage room that we did not need a permit. "20x20"
That's what Home Depot said!

Car Port.

That is the only place we have room for the cars. We build the car port ourselves because we couldn't afford a carpenter and again we thought ~~there was~~ no no permit was requirement. The reason we thought no permit was required was because H. Depot and Lowe's told us when we checked on storage buildings. ~~It had~~ no permits was required.

City requirement 15 ft
from property line.

Why can't we make the storage shed
back 15 ft which is city requirements?

- We didn't know the storage shed
had to be 15 ft from property line.
We have no funds to redo or move it.

Car Port

- The reason we cannot make the
car port is because that is the only
room for the cars to fit. We build
it ourselves because it was cheaper
and we didn't have enough funds to
hire a carpenter. We have no funds
to move it and there is no other place
to put the car port.

The storage; That is the only
place for it because the house
is on the top and the only
available space is at the bottom.
