ZONING CHANGE REVIEW SHEET

CASE: C14-2012-0073 – 729 E. Slaughter Lane, **Z.A.P. DATE:** August 21, 2012
Unit B

ADDRESS: 729 East Slaughter Lane, Unit B

OWNER/APPLICANT: 729 East Slaughter Lane, Ltd. **AGENT:** Charles Wehbe
(Najib F. Wehbe) and Charles Wehbe

ZONING FROM: GR **TO:** CS-1 **AREA:** 0.028 acres
(1,200 square feet)

SUMMARY STAFF RECOMMENDATION:

The Staff recommendation is to grant commercial – liquor sales (CS-1) district zoning.

ZONING AND PLATTING COMMISSION RECOMMENDATION:

August 21, 2012:

ISSUES:

None at this time.

DEPARTMENT COMMENTS:

The rezoning request is for a lease space area in a single-story retail sales center under construction near the intersection of East Slaughter Lane, an arterial roadway and Brandt Road, a collector street. The center is planned for 10,000 square feet of retail sales, service station and food sales uses and has community commercial (GR) zoning. There is an auto washing business proposed on GR property to the north, multi-family residences across East Slaughter Lane (MF-2-CO). There are single family residences immediately west of the retail center, within the Crossing at Onion Creek subdivision. Please refer to Exhibits A (Zoning Map) and A-1 (Aerial Exhibit).

The Applicant proposes commercial – liquor sales (CS-1) district zoning in order to occupy a 1,200 square foot lease space with a liquor sales use. Staff recommends the Applicant's request given its location within a shopping center which contains a mix of commercial uses and takes its access to an arterial roadway.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
Site	GR	Under construction
North	GR	Under construction for additional retail sales

		space and auto washing uses
<i>South</i>	GR	Under construction for retail sales uses, service station and food sales uses
<i>East</i>	MF-2-CO	Apartments
<i>West</i>	SF-4A	Single family residences in the Crossing at Onion Creek Subdivision

AREA STUDY: N/A**TIA:** Is not required**WATERSHED:** Onion Creek**DESIRED DEVELOPMENT ZONE:** Yes**CAPITOL VIEW CORRIDOR:** No**SCENIC ROADWAY:** No**SCHOOLS:**

C1
8**SUMMARY STAFF RECOMMENDATION:**

The Staff recommendation is to grant commercial – liquor sales (CS-1) district zoning.

BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

The commercial – liquor sales (CS-1) zoning district is intended for commercial and industrial activities of a service nature which typically have operating characteristics or traffic service requirements generally incompatible with residential environments, and specifically includes liquor sales as a permitted use.

2. *Zoning changes should promote an orderly and compatible relationship among land uses.*

Staff recommends the Applicant's request given its location within a shopping center which contains a mix of commercial uses and takes its access to an arterial roadway.

EXISTING CONDITIONS**Site Characteristics**

The subject rezoning area is undeveloped. There appear to be no significant topographical constraints on the site.

Impervious Cover

Within the Onion Creek watershed, the maximum impervious cover allowed by the CS-1 zoning district would be 80%, which is a consistent figure between the watershed and the zoning regulations.

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Desired Development Zone. The site is in the Onion Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Net Site Area</i>	<i>% with Transfers</i>
Single-Family (minimum lot size 5750 sq. ft.)	50%	60%
Other Single-Family or Duplex	55%	60%
Multifamily	60%	70%

Commercial	80%	90%
------------	-----	-----

According to floodplain maps there is no floodplain within or adjacent to the project boundary.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

No trees are located on this property. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment on this site will be subject to the following water quality control requirements:

Structural controls: Sedimentation and filtration basins with increased capture volume and 2 year detention.

Site Plan

Compatibility Standards apply within 540 feet or less from property in an SF-5 or more restrictive zoning district. SF-4A is located approximately 350 feet to the west of the proposed zoning change.

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

Please be aware that State Law governs the location of the sale of alcohol; it may not be sold within 300 feet of a church, public or private school or public hospital [Please refer to Subchapter C Local Regulation of Alcoholic Beverages].

Transportation

No additional right-of-way is needed at this time. Additional right-of-way may be required at the time of a revised subdivision and/or site plan.

A traffic impact analysis was completed with zoning case no. C14-02-0120a.SH.

Water / Wastewater

The site is currently served with City of Austin water and wastewater utilities. If new development is planned, the landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the proposed land use. Depending on the development plans submitted, water and or wastewater service extension requests may be required. Water and wastewater utility plans must be reviewed and approved by the Austin Water Utility for compliance with City criteria. All water and wastewater construction must be inspected by

C1
10

the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.
