HISTORIC LANDMARK COMMISSION NOVEMBER 26 2012 NATIONAL REGISTER HISTORIC DISTRICT NRD-2012-0123 Old West Austin 3308 Jefferson Street

PROPOSAL

Construct a new house.

PROJECT SPECIFICATIONS

A demolition permit was reviewed by the Historic Landmark Commission for the existing c. 1946, 768 sq. ft. house on September 24, 2012. Release of the permit was allowed pending submittal of a City of Austin documentation package and Historic Landmark Commission review of the design for a new building. The documentation package has been provided to the Historic Preservation Office.

The applicant proposes to construct a 1,759 sq. ft., two-story house. The design of the house is contemporary, but with references to traditional architecture in its form and materials. There will be multiple roof pitches with gable and hipped forms with prefinished standing seam, metal roofing. The house will be clad in painted board and batten siding, and will have multiple sizes of aluminum clad windows, most being 2:2 double-hung. The house will have a centered, partial width front porch. There will be no garage structure on the parcel, but a new driveway is planned in front of the new house.

STANDARDS FOR REVIEW

The existing property is listed as contributing to the Old West Austin National Register Historic District; however the demolition permit was approved for release by the Historic Landmark Commission on September 24, 2012. Applicable general design review guidelines state:

- Contemporary design for alterations and additions to existing properties are appropriate when such alterations and additions do not destroy significant historic, architectural, or cultural material and are compatible with the size, scale, color, material, and character of the property, neighborhood, or environment.
- Whenever, possible, new additions or alterations to structures shall be done in such a manner that if such additions or alterations were to be removed in the future, the essential form and integrity of the structure would not be impaired.

Although the design of the house references traditional forms and materials, the style is not compatible with the architectural character of this area of the Old West Austin National Register Historic District. The majority of the homes in the neighborhood are one-story, Minimal Traditional homes, or Craftsman-style bungalows, with simple roof forms and horizontal or brick cladding.

STAFF RECOMMENDATION

Release the building permit with the recommendation that the applicant consider a design more compatible with the architectural character of the neighborhood, and eliminate the paved driveway in the front yard.

3308 Jefferson - existing contributing house

3310 Jefferson - contributing property.

3308 Jefferson - existing contributing house

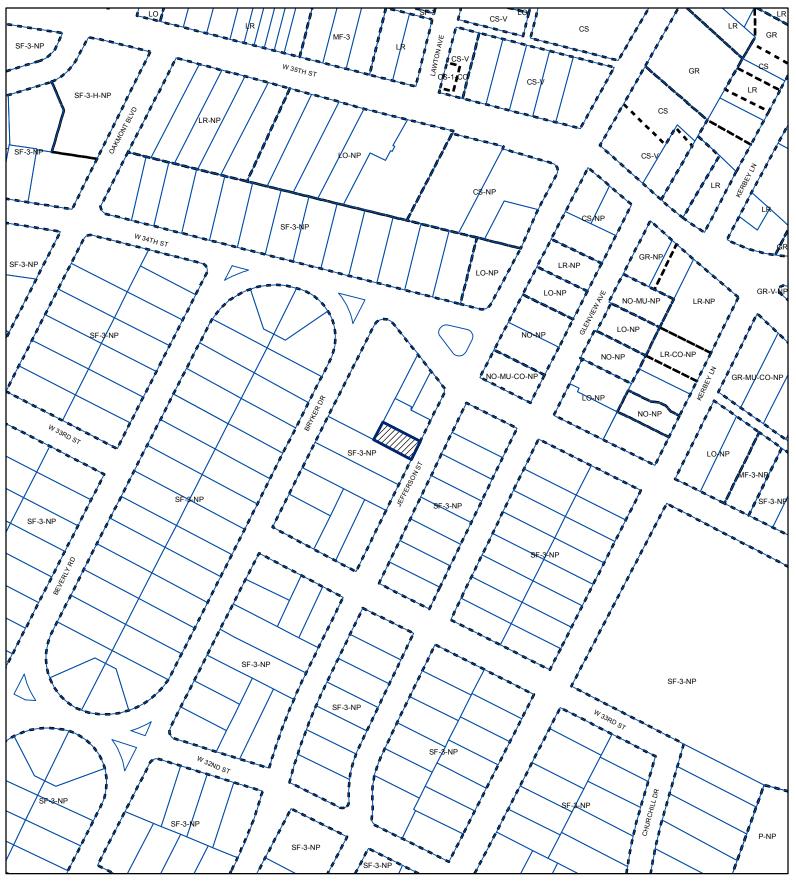

3310 Jefferson - contributing property.

3304 Jefferson - non-contributing property.

3306 Jefferson - non-contributing property.
