Amount of This Action:	(689.00)
Remaining Balance:	<u>27,796.11</u>
Total Amount of this Action	<u><u>689.00</u></u>

**ANALYSIS / ADDITIONAL INFORMATION:** The Austin Clean Water Program Govalle 4 – Webberville/San Bernard/4th Street Wastewater Improvement Project required the acquisition of a permanent wastewater line easement at the property located at 3019 East 12th Street, Austin, Travis County, Texas. The Wastewater Improvement Project was mandated by the U.S. Environmental Protection Agency’s Administrative Order, received April 29, 1999.

In response to the U.S. Environmental Protection Agency’s Administrative Order, the City of Austin implemented the Austin Clean Water Program to plan, design, and construct sustainable wastewater collection system improvements that will be free from sanitary sewer overflows.

The previous owner of the needed acquisition granted a right of entry for construction. Construction is now complete on the Austin Clean Water Program and acquisition of this easement is required.

The City of Austin has attempted to purchase the needed wastewater line easement. The City and the property owner were unable to agree on the value of the needed acquisition. The Law Department is requesting authorization to file an action in eminent domain on behalf of the City of Austin.
