DEPARTMENT COMMENTS:

The request is for approval of the Avery Station Section II-B. The plan is composed of 101 lots (97 single family and 4 open space/drainage) on 21.28 acres.

The plat is located in the Leander Rehabilitation PUD, which was approved in 1998. Because the land was owned by the State of Texas at the time, (and was being sold to the public as excess inventory) it was also approved by the Special Board of Review. The site is also located in the Lakeline TOD, and is located just north of the rail station. It should be noted that this final plat is the first plat out of the preliminary plan revision that was approved by the Planning Commission on February 26, 2013.

STAFF RECOMMENDATION:

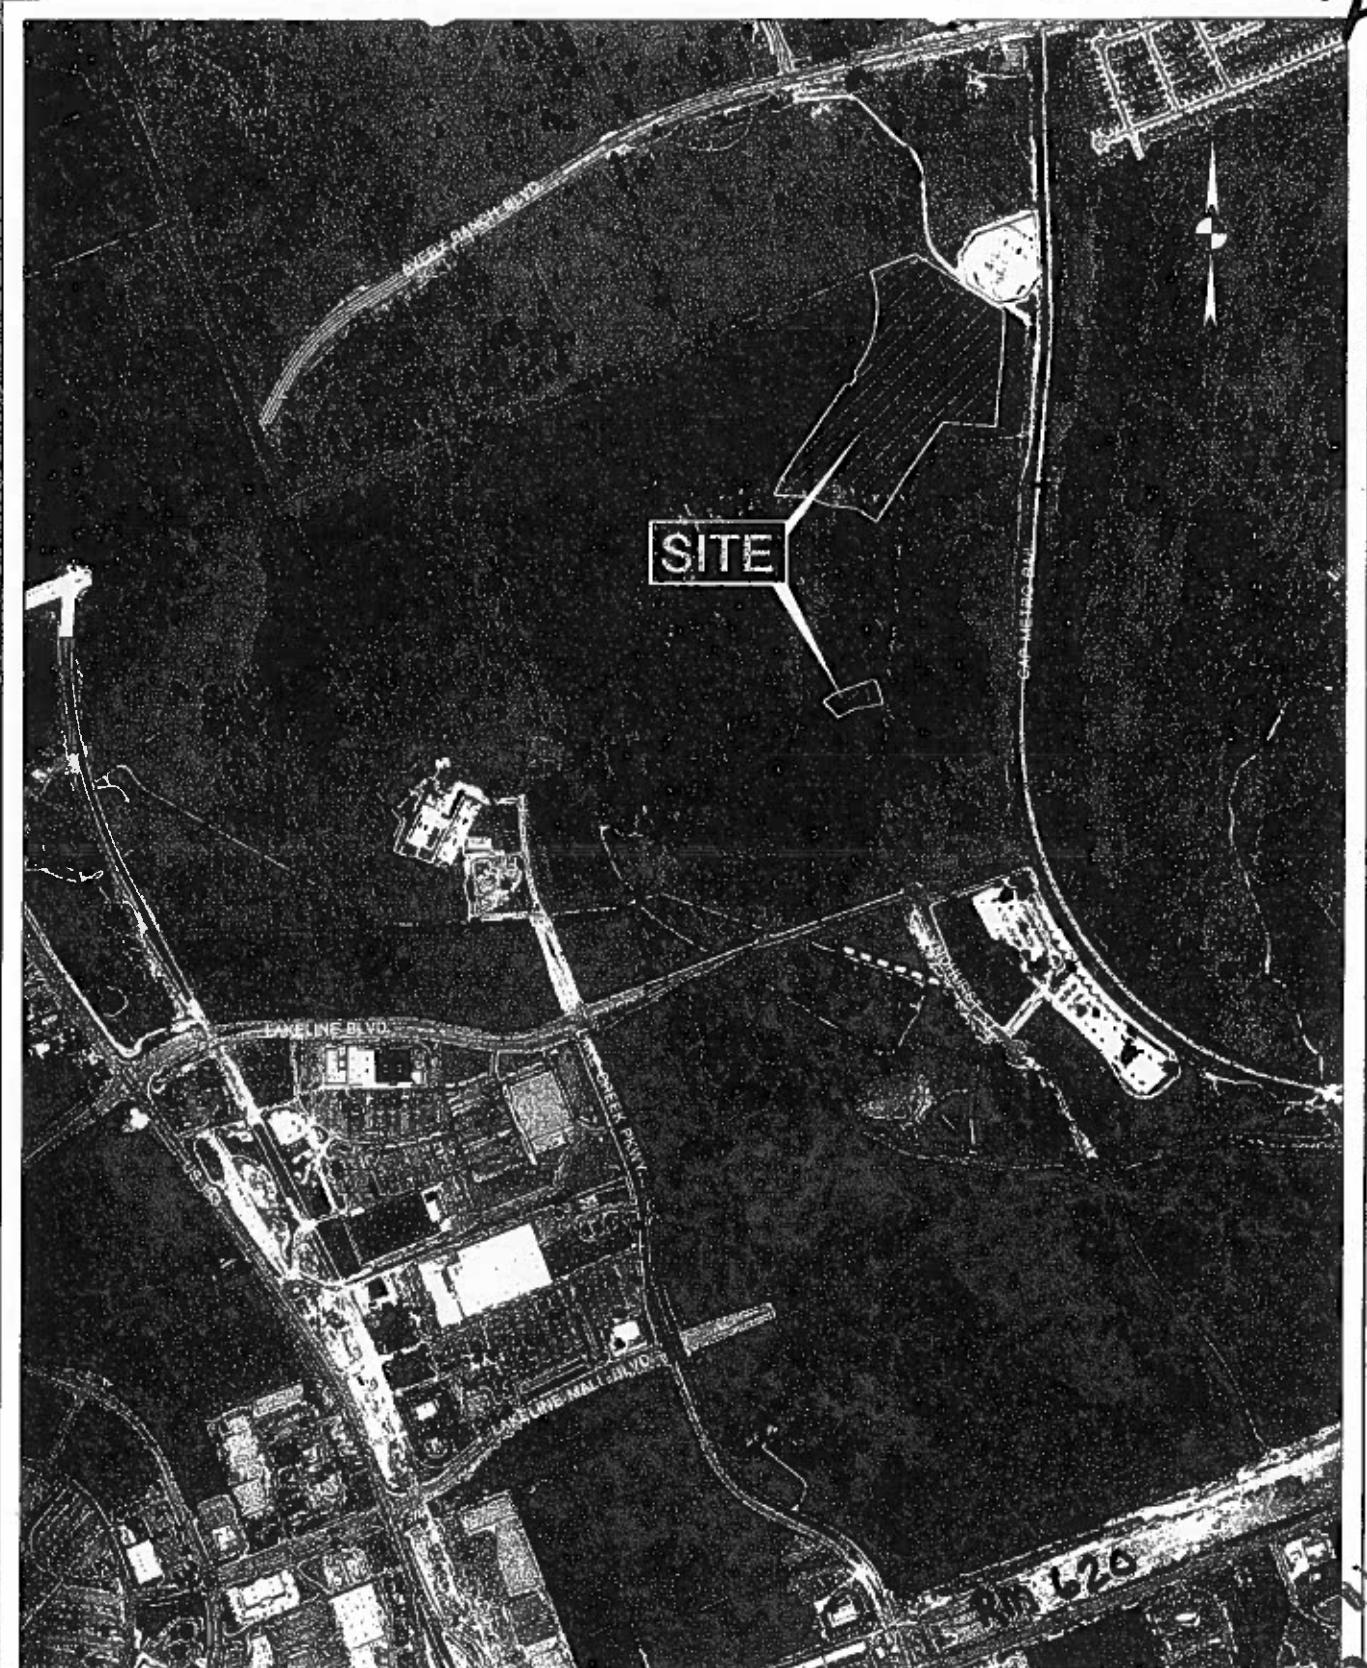

The staff recommends approval of the plat. The plat now meets all applicable State and City of Austin LDC requirements.
