To: Austin City Council

Subject: **Vote to Preserve the Natural Environment of Barton Springs South Hill.**

Letter: Greetings,

Dear Council Members,

The current "Grounds Improvement" project of the Barton Springs Master Plan is in Violation of City Council Resolution # 20090115028, which adopted the Barton Springs Master Plan on January 15th 2009.

The language regarding the South Side is clear and unmistakable. The Master Plan itself recommends:

"The huge pecans on the South Lawn towering over the lush lawn is one of the most inviting vistas of Barton Springs. Because the South Lawn is such a beloved feature, care should be taken to avoid temptation to either re-imagine it or to use it to solve functional problems. (Handicapped accessibility or maintenance truck accessibility come to mind.) It is a tree-covered lawn today. It should be a tree-covered lawn going forward. It should not be a tree-covered lawn with access ways cutting through it."

Yet the current Grounds Improvement plans are set to do exactly the opposite of these rare, wise words within the Master Plan that Resolution # 20090115028 approved.

The current plans violate this resolution and in doing so allows an assault on the Natural Environment of Barton Springs.

A special-called meeting of the Joint Committee was held at the pool's South Gate on May 9th, 2012, to hear the public's voice. The overwhelming majority of people there spoke against this planned development.

On July 28, 2012, The Joint Committee, established to properly vet the public's voice in Master Plan issues, voted against the petition wish of over 600 Barton Springs patrons who petitioned against approval of the "Grounds Improvement Project on the south side".

we don't need unnecessary and expensive upgrades; we only need to better maintain, respect and care for the amazing Natural Resource of Barton Springs. Barton Springs is about the water and the Natural Environment! That is what the people want when they visit here. Not fancy new fences, huge stone column gates and winding crushed granite pathways. People come to the Springs to experience Nature. The water, grass and trees are enough.

The south side provides an essential, undeveloped park alternative to the developed main gate side. This natural look and feel and the existing features should be preserved.

Please preserve these features on the south side. Any money saved should be spent protecting the water, the trees, and the overall health of Barton Springs and the aquifer that feeds the springs.

The most powerful way we can do that is to divert all money for the Master Plan to the acquisition and protection of land over the aquifer; and for better pool maintenance and tree stewardship. Please protect the environment by leaving it alone, and protect the water by buying more aquifer land.

Thank You,  
Brian Leonard

59	James Dilworth	Austin	TX	78746	United State:	9/13/12	I have been going to Barton springs ( almost exclusively to the south lawn) since my parents used to take me there as a baby. My happiest memories have been laying out on that lawn under those miraculous oak and pecan trees with all kinds of wonderful people throughout my life .....Barton springs is the soul of Austin and where my and countless other homegrown Austinites hearts will always remain, I see no reason why it needs to be changed . Why remove magic?
60	erik kuykendall	Austin	TX	78704	United State:	9/13/12	We donâ€™t need unnecessary and expensive upgrades, we only need to better maintain, respect and care for the amazing Natural Resource of Barton Springs. Barton Springs is about the water and the Natural Environment. The south side provides an essential, undeveloped park alternative to the developed main gate side. This natural look and feel and the existing features should be preserved.
61	Melissa Seal	Austin	TX	78757	United State:	9/13/12	This is a rare resource that sets us apart from every where. The trees define barton as much as the water. We do not want or need concrete over our our park. Please do not develop our park, our life blood into a trashy unnatural modern "park." Vote to preserve our natural resource.
62	Jesse Wilcoxon	Mariposa	CA	95338	United State:	9/13/12	No interpretation of that includes killing hundreds of years old trees. 84	Joshua Sabik	Austin	TX	78705	United State:	9/13/12	The south side of the park is the best part; I love laying out in the shade of the trees. Adding impervious cover to the south side would detract from what makes Barton Springs so wonderful.
85	Caroline Home	Austin	TX	78758	United State:	9/13/12	Barton Springs is perfect as it is. Leave it alone!
86	Andrew Miller	Austin	TX	78735	United State:	9/13/12	The natural look and feel of Barton Springs as it is remains one of the greatest testaments to what makes Austin great. Do not spend unnecessary money to cheapen and suburbanize what is going to be such a challenge to preserve as it is.

88	Bart Landry	Austin	TX	78749	United State:	9/13/12	I spent a lot of time at Barton Springs - swimming for exercise, meditating, playing guitar on the hill, and generally enjoying the natural mecca within a bustling city. I (like everyone I know who frequents Barton Springs) love the natural environment and want to preserve its current beauty. It is better as is, than with unnecessary development. "Improvements" to nature almost never are. Current accessibility has been adequate for quite some time. 99	Adam Davis	Austin	TX	78751	United State:	9/14/12	Clearly it's an unneeded change. Not to mention you'll probably need 24hr police surveillance just to keep hundreds of people from tampering with said construction in the middle of the night. Figure that into your improvement costs, yeah? I'm done being polite.

112	Elliott Ybarra	Austin	TX	78704	United State:	9/14/12	Dude,  Its a spring fed pool available in the heart of Austin. Beutiful, healing, cool water. Wonderful people, astounding moments.
113	Will Cason	Austin	TX	78744	United State:	9/14/12	Don't change a thing damitt Concrete burns the feet and dirt helps filter our contaminants naturally where as concrete sides will cause more concentrated run-off from debris to bacteria to flow into the pool.
114	Peter Steinharc	Austin	TX	78745	United State:	9/14/12	I have participated in the Master Plan Process since its inception. PARD does not maintain what it already has resposibility for. The Master Plan will change the nature of the pool and spend money that should be used for maintenance and other parks. We don't have the water to maintain 2000 new plants and 30 new trees. Change the management not the pool.
115	Annabelle Gree	Univers	TX	78148	United State:	9/14/12	I'm all about preserving nature - there's no need to change something that is already perfect, magical and just IS. &lt;3

117	Nancy Simons	Austin	TX	78703	United State:	9/14/12	I do not see these changes as improvement. If you want a man-made environment, it should be built somewhere that is ugly and unappreciated. Then it might be improvement.
118	Steve Michene	Austin	TX	78757	United State:	9/14/12	Barton Springs is special for a lot of reasons. One reason is that it has such a natural feel to it, with lots of trees and grass. 134	Tom Ostertag	austin	TX	78746	United State:	9/14/12	I am a Texan who wants it to stay that way, and not have some shit hole there.
135	Allison Pasch	Austin	TX	78752	United State:	9/14/12	It is a natural springs, Id really like to keep it that way; by doing so, generations to come can also enjoy the springs in a natural state.
136	Stephen Summ	Austin	TX	78756	United State:	9/14/12	More construction- especially a concrete wheel-chair access sidewalk into the back entry of the springs- is a HORRIBLE idea! Leave it alone. Any wheel chair person can get in the front entrance or get help to enter the back gate. don't go laying any more concrete over our grass. Keep off. Stay away. Don't meddle or tamper. keep the footprint small not bigger.
137	Josh Pullin	Austin	TX	78705	United State:	9/14/12	Barton Springs is one of the places in Austin that has come to define it: as a travel destination, a natural wonder, and a fantastic place to swim. We owe it to future generations and ourselves to preserve it as best as we can. And that means limiting development nearby.
138	Vanessa Karam	Austin	TX	78745	United State:	9/14/12	Waste of money for no increased benefit. And I like the lawn.
139	Aspen Huebner	Ausitn	TX	7845	United State:	9/14/12	This is a natural environment that should be appreciated! :)
140	Steven Bogolu	Austin	TX	78759	United State:	9/14/12	Barton Springs is the heart of Austin for many many people. Almost everyone I know brings visitors here. The environment is friendly, happy, and genuinely Austin. Changing this atmosphere, even with good intentions, is likely to diminish, distance, and taint this iconic and amazing place in our city.
141	Lucy Hanouille	Austin	TX	78739	United State:	9/14/12	Barton Springs is a treasure we should cherish and preserve.

144	Caroline Dunca	Austin	TX	78704	United State:	9/14/12	To the individuals in support of funding the grounds improvement project of the master plan: Please spend a sunrise, sunset, or a quiet moment on the south hill connecting with earth and ancestors and understand that this sacred gift must be preserved for future generations. There are an abundance of other locations for improvements please protect and enjoy mother natures sacred grounds as they are.
145	Katherine Tarr	Austin	TX	78723	United State:	9/14/12	I have lived in Austin for 16+ years and am a regular user of the Barton Springs pool who adores the South Side entrance and "great lawn" as it is. Please please do not change it.
146	Roberta Sherw	Austin	TX	78704	United State:	9/14/12	I live 3 blocks from pool, want it to stay as pristine/in natual state as possible.
147	paul norris	Austin	TX	78765	United State:	9/14/12	I favor preservation and conservation before overblown renewal....
148	Beverly Walker	Kingsla	TX	78639	United State:	9/14/12	It's essential to all of us
149	Stephanie Ferg	Austin	TX	78731	United State:	9/14/12	I have been going to the back side of Barton Springs for half my life... I rarely use the front entrance for the SPECIFIC reason that I LOVE the look and feel of the back gate and the big hill.
150	Kathleen Young	Austin	TX	78704	United State:	9/14/12	Because I go there everyday with my dog and I love its natural beauty and agree that money is best spent on protecting the waters and the trees. Fancy paths and entrances are not what we are interested in.
151	alex dasilva	Austin	TX	78757	United State:	9/14/12	We need less destructive building in Austin, and preserving this hill is a start towards maintaining the environment.
152	Amy Smith	Austin	TX	78704	United State:	9/14/12	Changing the landscape of the South Hill will change the whole feel of Barton Springs.
153	Rona Distenfel	Austin	TX	78704	United State:	9/14/12	The city needs to stop wasting money on "improvements" when basic maintenance is being neglected and there are greater needs elsewhere.

154	monica baker	austin	TX	78704	United State:	9/14/12	I love Austin for it's nature and it's originality and it's culture. . .No development is needed to make Barton Springs any better than it already is. I only enter into the South Gate and I love how much at nature it feels. The smallest amount of concrete and fences and the most amount of trees and grass possible please. . . I vote to maintain it's already beautiful natural appearance.
155	Jan Castleberry	Austin	TX	78704	United State:	9/14/12	Barton springs is the crown jewel of Austin. Do not develop her to death. Preserve her, keep her green and lush for this generation and all those to come.
156	Stephanie Fraic	Austin	TX	78704	United State:	9/14/12	I believe that we should honor the original vision of the master plan for the Barton Springs backlawn that specifically states it as a natural area. It is important to remember the heritage of our community and honor and respect those decisions. The loss of the natural area will forever change the backlawn and I am against any modifications outside of basic maintenance of existing structures and gates.
157	Jeff Jack	Austin	TX	78704	United State:	9/14/12	Keep the "South" side neighborhood friendly and do not commercialize the area with the proposed improvements.

162	Donna Ramsey	Austin	TX	78704	United State:	9/14/12	Please leave the landscaping around Barton Springs as it is. It does not need to be gentrified. 176	Holly Holmes	New Br	TX	78130	United State:	9/14/12	Every time my family went to Austin growing up, we stopped at Barton Springs. This was always my favorite part of the trip because it seemed to magical to have such a beautiful, natural place in the middle of the city. It would cause me great sorrow to see my childhood fantasy land take on aspects of a man-made leisure area. Perfect things don't need to be improved.
177	Saffron Brown	Austin	TX	78733	United State:	9/14/12	I am a homegrown Austinite and I think the trees and hill should remain as they are and any additions should be made VERY carefully to add ADA and maintenance access with out destroying the landscape that has existed in it's current form for over 100 years. It is a historical landmark.
178	Steve Hafner	austin	TX	78704	United State:	9/14/12	Remember last spring when they were going to dredge the pool. wasted time and money. Didn't get anything done . Just screw up the pool .Charge more. Put money in developers swiss bank accounts. destroy Barton Springs. All for some folks that don't even swim at the springs. Pretty sad.
179	rochelle mixon	Austin	TX	78704	United State:	9/14/12	As an almost life-long resident of Austin, I would be let down by this so called 'green city' allowing the original lay-out and integrity of the Barton Springs south side lawn. The only reason I see fit IS putting in a handicap accessible ramp, but ONLY IF it is done with taste and approval of the Austin residents along with their input as per creative ideas for maintaining aesthetic value and the legacy of the great springs. I hope this is seriously taken into consideration, thank you for your time.
180	Jerry Breeze	New Yc	NY	10025	United State:	9/14/12	I grew up in Austin, and spent most of my first 42 years there. Barton Springs was an indelible part of my life, and still is. 181	Donnie Ault	Hot Springs	AR	71903	United States	9/14/12	I used to live in Austin, heard people complain of how much it had already changed even when I moved there in 1982. Thirty years later it has only changed a lot more for the worse. I see these developer-driven, ugly, changes evrywhere I go, including my home town, a National Park where I now live. I trust David Halley and the people who are usually associated with petitions such as this. If I don't know the people or much about the issue, I won't sign a petition.

							Barton Springs is unique. Every major city in America has big buildings, hotels, conference centers, and shopping malls; but only Austin has Barton Springs. It does not need any changes or improvements. It needs protection. Spend money to buy more aquifer land to protect the water. Maybe improve the (existing) ladies' restroom a bit (how about cubicles that are big enough to get into AND shut the door, without having to almost stand on the toilet!); but otherwise, leave the place alone! It is

							This is a very important piece of Austin landscape, one Austinites like you and I have known since our youth. So much of Austin is being renovated to no gain but to create a town that increasingly caters to the nouveau-riche. South Congress is now "SoCo," South Lamar "SoLa" and some people are even calling where I live "LoBurn." North Guadalupe might as well be "GuaNo." Condos are going up and local music is being chased out. Even in the fine arts, we are already beat by Fort Worth while our councilors are starving the arts. These changes are not a reflection of the Austin that made our city great. Our own geography is being violated, both in name and in body. At least keep this as it was. Barton Springs is both the canary in the coal mine and the straw that

							I have loved the Springs for as many years as I've lived here - 38. It is worth supporting like the dearest old friend one has ... not by changing it, but by honoring it. We failed to do that by building on the aquifer ... let's not fail again by "improving" on this most magnificent of places.

							<p>Barton Springs doesn't need fixing, just continued and additional protection of the aquifer and existing grounds. Please don't change the essential and natural beauty of the springs. I know it's tempting to make it more of an attraction - resist the temptation, and keep it as wild as you can. This is one thing that California has done pretty well; I'm thankful every day that our east bay parkland is cared for, but left alone as a completely wild refuge (that we share with coyotes, quail, turkeys, owls and even the occasional wildcat) in the midst of the otherwise urban landscape.</p> <p>Thanks,</p>

Subject: **Please Do Not Amend the SOS Ordinance**

Letter: Greetings,

Please Do Not Amend the SOS Ordinance. It will allow construction that will harm the environment and culture at the Pool. Thousands have spoken against this Plan. Please preserve the Park by leaving the SOS ordinance as it is. Please do not approve the amendment request. It would set a very dangerous precedent for reckless construction at that would directly effect future generations of swimmers and park goers.

As you saw yourselves at the Meeting on Feb. 6th 2013; these plans are not complete and do not comply with many necessary environmental considerations. It would be negligent to award such a plan the permissions granted through amending the SOS Ordinance. Please, your are the Environmental Board; protect the Environment of Barton Springs.

Thank You,  
Brian Leonard

# "Please Do Not Amend the SOS ordinance" - Comments

Name, City, State, Zip, Country, Signed On, Comment

Mary Silva, Austin, TX, 78750, United States, 2013-02-08, "Barton Springs, natural, as a sanctuary, is Austin!"

Athena Jezik, Austin, TX, 78704, United States, 2013-02-08, "It is time for developers to stop destroying environmental sensitive areas for their profit. This is not IMPROVEMENTS, this is destruction and profit under the local chapter of unagenda21."

Gayle Michaels, Kempner, TX, 78704, United States, 2013-02-08, I live one minute from Barton Spring and wish to preserve the vestiges of original integrity.

Helen Besse, Sunset Valley, TX, 78745, United States, 2013-02-08, "Though I do not live in the city jurisdiction, most of my sales taxes go to Austin and I love Austin. I am a former daily swimmer at BSP. Additional development on the south side does not improve the quality of life, ambiance, or integrity of BSP. Prefer that you consider spending your limited COA budget on really meaningful projects like low-cost housing."

Cindy Cook, Austin, TX, 78704, United States, 2013-02-08, "It is important that we protect the Barton Springs environment. This is a federally protected reserve, not just a swimming pool. You have access on the north side, leave the south side alone. I am physically disabled and I enter on the north side, it is already set up with a wheelchair ramp AND several entryways into the pool. If you start construction on the south side, it would destroy the nature preserve. Are you going to make new pool entryways on the south side? Are you trying to kill off the salamander? We must protect our oasis of Austin. NO CONSTRUCTION!"

Michael Williams, Austin, TX, 78745, United States, 2013-02-08, "The SOS initiatives and ordinances have done SO much to protect our beautiful jewel Barton Springs in the center of our city from developers for our kids and their kid's kids, it must NOT be changed. The SOS idea has also created a nearly pristine greenbelt for all of us to share and enjoy."

Nora watkins, palm bay, FL, 32907, United States, 2013-02-08, "My Aunt and Uncle live in Austin and went to Barton Springs daily instead of having to pay for expensive physical therapy, this is truly a beautiful place."

Jeanie Godbout, Austin, TX, 78723, United States, 2013-02-08, Save the Springs! They are more important than lining the pockets of those who want to develop at the cost of ruining these beautiful springs!

Laura Farb, Austin, TX, 78704, United States, 2013-02-08, "We need to protect this precious resource, which adds so much to the quality of living in Austin."

lakshmi jackman, austin, TX, 78704, United States, 2013-02-08, I have lived here for 34 years and live in this neighborhood. I pay taxes. I

vote. I pay attention. Keep the SOS in tact and the springs safe!!!!!!!

Thomas Murphy,Austin,TX,78727,United States,2013-02-09,"For more than eighty years three generations of my family have enjoyed the grounds of Barton Springs UNALTERED. Start to analyze the current Grounds Alteration project proposals, and you will find that they hardly reflect in any way the reality to which they appear to refer-- maintenance of the environment; and if you go further, you will discover that there is not even an attempt to adjust the ideas of the project to this reality. Quite the contrary: through their bizarre notions of improvement, the ""planners"" are trying to cut off any personal vision of the Master Plan and the SOS ordinance. It does not apparently worry the planners that their ideas are not true; they are using them as trenches for the defense of interests inimical to the interests of both the Springs and of the people of Austin."
