Additional Backup Information

The purpose of this RCA is to request that Council approve the franchise agreement for American Medical Response of Texas, Inc. on the third reading.

American Medical Response has held a franchise with the City of Austin since December, 1996. On Oct. 25, 2012, Austin-Travis County EMS (A/TCEMS) received an application from American Medical Response of Texas Inc. requesting a renewal of the franchise for another five-year term. All the required application elements have been submitted and the application fee has been paid in full.

In order for a private ambulance company to provide non-emergency transfer services within the limits of the City of Austin, the provider must hold a franchise from the City. Non-emergency transfers typically occur between skilled nursing facilities, hospitals, and private residences and are usually prescheduled by medical personnel. Currently, two companies hold such franchises, Acadian Ambulance Service, Inc.(Acadian) and American Medical Response of

Texas Inc. (AMR)

A/TCEMS recommends approval of this franchise renewal. American Medical Response of Texas Inc. has proven over the past 17 years that they can provide satisfactory service to the Austin community. Call volume levels indicate that two franchise providers are necessary to handle the demand for non-emergency ambulance transfers. Failure to renew this franchise will result in only one franchise holder for the City of Austin. In its Nov. 14, 2012 meeting, the Austin-Travis County EMS Advisory Board reviewed staff recommendations and approved the franchise renewal for five years with a vote of 7/0 with one abstention.
