

**City Council Questions and Answers for
Thursday, March 28, 2013**

These questions and answers are related to the
Austin City Council meeting that will convene at 10:00 AM on
Thursday, March 28, 2013 at Austin City Hall
301 W. Second Street, Austin, TX

**Mayor Lee Leffingwell
Mayor Pro Tem Sheryl Cole
Council Member Chris Riley, Place 1
Council Member Mike Martinez, Place 2
Council Member Kathie Tovo, Place 3
Council Member Laura Morrison, Place 4
Council Member William Spelman, Place 5**

The City Council Questions and Answers Report was derived from a need to provide City Council Members an opportunity to solicit clarifying information from City Departments as it relates to requests for council action. After a City Council Regular Meeting agenda has been published, Council Members will have the opportunity to ask questions of departments via the City Manager's Agenda Office. This process continues until the final report is distributed at noon to City Council the Wednesday before the council meeting.

QUESTIONS FROM COUNCIL

1. Agenda Item # 13
 - a. QUESTION: What is the total cost of the energy efficiency upgrades? What is the average rental rate at these apartments? COUNCIL MEMBER TOVO
 - b. ANSWER: The total cost of this project is \$149,800. The energy efficiency rebate program does not take into account rental rates. However, according to the Whisper Hollow Apartments web site, rents range from \$639/mo for a 474 sf one bedroom, one bath apartment to \$959/mo for a 1,080 sf two bedroom, two bath apartment.
2. Agenda Item # 15
 - a. QUESTION: Does this change any current positions, or simply define them under the new rules? COUNCIL MEMBER SPELMAN
 - b. ANSWER: It mainly defines them under the new civil service rules. Item # 15 creates the required City ordinance (like Police and Fire has) that defines how many sworn positions EMS may have at each rank (classification). It will match the number of positions EMS currently has at each rank. The titles of each position will change to match the current rank structure and some requirements in the Job Descriptions will change to comply with Civil Service requirements, such as two years in the next lower position classification to be eligible to take the promotion exam.
3. Agenda Item # 17
 - a. QUESTION: The Planning Commission Comments made available with the briefing materials raise the following questions: a) (Reproducibility of Pilot Study) How does staff plan to evaluate participation in context of proximity to differing adjacent land uses in order to fully appreciate what is contributing or diminishing the success of a participant? b) (Economic Impacts) Will staff track the amount of time dedicated by staff and businesses to document process and participation? c) (Importance of Geographic Diversity) Will staff work to ensure that the participants chosen for the pilot are distributed not only in different areas of the city but also with proximity to varied mass transit options, neighborhoods, and land uses? COUNCIL MEMBER MORRISON
 - b. ANSWER: a) It is anticipated that the follow-up evaluation will involve interviews with participants to identify the effectiveness of the different

parking reduction strategies. We will attempt to determine the reasons why the participants are taking advantage of the program and whether the land use characteristics of the area affect their participation. We will also monitor citizen calls to the City's 311 system to determine whether proximity to residential areas has an effect on the success of the program. b) We will track the amount of staff time dedicated to the project in order to determine whether additional resources will be needed if the program is made permanent. In addition, each business participating in the program will be required to designate a transportation coordinator to serve as the main contact with the City and to document the participant's efforts in developing, promoting, and implementing the program. c) Staff is planning a public information process to disseminate information about the program and encourage applicants to submit proposals. It is our intention to select proposals which represent a range of geographic areas and situations. The incentive strategies will have to be appropriate to the location and uses of the site. For example, a strategy emphasizing transit incentives would only be appropriate in a location where adequate transit service is available. Staff will also consider the proximity of residential neighborhoods and whether the incentive strategies could negatively impact the residents before selecting an applicant for participation in the program.

4. Agenda Item # 18

- a. QUESTION: The draft ordinance adopts a mediated settlement agreement by reference. Please a) provide the agreement b) identify the specific requirements of Title 25 which would be waived under this ordinance and for those requirements, specify how the terms of the agreement compare to the requirements being waived, and c) for 25-8-514, identify the amendment needed to implement the terms and conditions of the agreement. COUNCIL MEMBER MORRISON
- b. ANSWER: See attachment.
- c. QUESTION: The posting language uses the language "site-specific amendments." Please confirm that Council is being asked to approve an amendment to SOS. Please articulate the differences between impervious cover and other site development standards that would be required under SOS versus this proposed settlement. COUNCIL MEMBER TOVO
- d. ANSWER: See attachment.
- e. QUESTION: The proposed agreement allows for impervious cover in the amount of 32% of the gross site area, while SOS stipulates impervious cover based upon net site area. What is the percentage of impervious cover allowed by this agreement calculated based on net site area? COUNCIL MEMBER MORRISON
- f. ANSWER: Staff estimates that the impervious cover is roughly 67% net site

area.

5. Agenda Item # 19

- a. QUESTION: Please provide a list of the projects that have been denied grandfathering as referenced in last week's Q/A. Please organize these by areas, ie. Barton Springs Zone, Drinking Water Protection Zone, and Desired Development Zone. If possible, please include applicant or representative names alongside each project number/name. It is my understanding that a staff member was able to generate just such a list in response to a citizen's request; please make this information available as much in advance of Thursday's meeting as possible so that we have the opportunity to review some of the cases. COUNCIL MEMBER TOVO
- b. ANSWER: See attachment.
- c. QUESTION: Do Travis County and other counties in Texas have regulations similar to the City's project duration? If so, please provide summaries of those regulations. COUNCIL MEMBER MORRISON
- d. ANSWER: No, Travis County does not have regulations similar to the City's project duration. Staff is unaware of any other Texas County with regulations similar to project duration; however, they may be other jurisdictions that have regulations in place that produce a comparable result.

6. Agenda Item # 21

- a. QUESTION: Please describe why this change is needed. COUNCIL MEMBER SPELMAN
- b. ANSWER: The adopted FY13 budget (page 115) included funding to upgrade 10 of the 22 new sworn positions from the rank of officer to detective effective April 1, 2013. The incremental cost per upgrade is \$19,598 for the remaining six months of the fiscal year. In our 2013 Horizon Issues, the Department put forth a goal of proactively responding to crime trends. These detective positions would assist with that goal by more efficiently addressing cases and working with other detectives and crime analysts to establish crime patterns. Classification upgrades are a consequence of the way the Department receives its 2:1,000 allocation of officers. The 2:1,000 formula considered by Mayor and Council does not include supervisors for officer positions or the detectives needed to address the APD caseload. This requires APD to request upgrades to address investigative and supervisory needs.
- c. QUESTION: What will the effect of adding 10 new Detective/Corporal positions be? Was there a reason for this change? COUNCIL MEMBER MARTINEZ
- d. ANSWER: In our 2013 Horizon Issues, the Department put forth a goal of

proactively responding to crime trends. These detective positions would assist with that goal by more efficiently addressing cases and working with other detectives and crime analysts to establish crime patterns. Classification upgrades are a consequence of the way the Department receives its 2:1,000 allocation of officers. The 2:1,000 formula considered by Mayor and Council does not include supervisors for officer positions or the detectives needed to address the APD caseload. This requires APD to request upgrades to address investigative and supervisory needs. The adopted FY13 budget (page 115) included funding to upgrade 10 of the 22 new sworn positions from the rank of officer to detective effective April 1, 2013.

7. Agenda Item # 23

- a. QUESTION: Will this comprehensive overview also include analysis of MBE /WBE utilization? COUNCIL MEMBER MARTINEZ
- b. ANSWER: No, the MBE /WBE program review is being done as a separate project which is the Disparity Study Project. A recommendation on the RFQS for the most qualified consultant is underway with a projected City Council award date of June 2013.

8. Agenda Item # 32

- a. QUESTION: Please confirm that the parks and other open spaces in the affected areas in the Lamar Blvd/Justin Lane TOD will open to the public. COUNCIL MEMBER MORRISON
- b. ANSWER: According to the Crestview TOD (transit oriented development) zoning ordinance C14-2008-0030, any development subject to the parkland dedication ordinance will provide land or fees in lieu of land for public park acquisition and/or development within the TOD and are assessed, once the site plan/subdivision applications are submitted to the City. However in practice, staff tries to negotiate land in-lieu of fees within the TODs due to the planned density. The same ordinance details requirements for Private Common Open Space (PCOS) which is intended to serve residents, employees and visitors of a specific development but can remain under private ownership and may not be open to the general public. The Private Common Open Space (COS) section has provisions for types of amenities, areas not credited, location and design criteria, maintenance, and a public dedication or fee-in-lieu component which are all determined on a case-by-case basis for appropriateness. A fee-in-lieu of Private Common Open Space can be accepted in combination with parkland dedication fees.

CAUSE NO. D-1-GN-12-003061

BCAC ACQUISITION, LLC, Plaintiff	§	IN THE DISTRICT COURT OF
	§	
v	§	TRAVIS COUNTY, TEXAS
	§	
CITY OF AUSTIN, Defendant	§	98th JUDICIAL DISTRICT

MEDIATED SETTLEMENT AGREEMENT

This Mediated Settlement Agreement ("Agreement") pertains to the development of property located at 7701 Bee Caves Rd., as further identified herein ("Subject Property"). Having completed the alternate dispute resolution procedure of Mediation, the terms of this Agreement ("Agreement") are agreed to by: (1) the City of Austin (the "City") through its Planning & Development Review Department ("PDRD") and Watershed Protection Department, as represented by legal counsel; and (2) BCAC Acquisition, LLC's corporate representative and its attorneys ("BCAC"). The City/PDRD and BCAC are collectively referred to as "the Parties."

1. **Scope of the Agreement.** This Agreement shall apply only to the site plan shown on Exhibit A and the additional technical specifications set forth in Exhibit B.
2. **PDRD Recommendation of Settlement Agreement.** PDRD agrees to seek the approval it deems necessary from the Austin City Council for BCAC to obtain administrative approval of a site plan and any other permits necessary to develop the subject property consistent with the terms and conditions set forth in this Agreement and in plan sheets attached hereto as Exhibit A and Exhibit B. The form of the approval from City Council shall be determined by the City at its sole discretion. Subject to City Council approval, the Parties agree to take the additional actions required by this Agreement.
3. **Requirements of Exhibits A & B.** Subject to City Council approval, subsequent permitting and development of the Subject Property shall be consistent with the following terms and conditions:
 - a. **Bio-Filtration Pond:** BCAC will construct the bio-filtration pond per the

Mediated Settlement Agreement

RE: BCAC v. COA

Page 1

specifications shown on Exhibit B, and will obtain and maintain a Barton Springs Zone Operating Permit for the pond.

b. Parking Lot: BCAC will pave its parking lots, and runoff will go to the bio-filtration pond shown in Exhibit B. The Bio-filtration pond will be sized to capture at least 1" runoff volume, including Bee Caves Road impervious cover as identified on Exhibit A.

c. Re-vegetation: In concert with its construction of the bio-filtration pond and the paved parking areas, BCAC will re-vegetate to City of Austin "Gro-Green" standards all areas on Exhibit A that are currently disturbed (or become disturbed during the construction) but are not designated for impervious cover on Exhibit A.

d. 40% Buffer: BCAC will leave the 40% buffer area, as identified on Exhibit A, undeveloped and undisturbed.

e. Rainwater Harvesting: BCAC will implement rainwater harvesting for its existing theatre building and will use collected water for landscape irrigation. Rainwater harvesting shall not be required until the Amphitheatre phase is built.

4. Consideration by City Council. The Parties agree that this settlement is contingent upon approval by the Austin City Council. City staff will endeavor to place this on the city council agenda for approval as soon as practicable

5. Consideration Triggered by City Council Approval.

a. If the City Council approves: (1) the City shall rescind the suspension of cultural arts funding previously awarded to One World Theatre on September 27, 2012, and release the previously awarded funds as soon as practicable; and (2) the Plaintiff shall submit fully engineered construction site plans, which will be consistent with Exhibits A and B, to PDRD for review.

b. If the City Council approves and if the City, acting through PDRD, issues a site plan

permit for development of the improvements shown on Exhibit A and Exhibit B: (1) each party shall bear its own attorney's fees and costs, extend mutual releases to one another, and the above-styled case shall be dismissed by BCAC with prejudice; and (2) BCAC shall develop the site in accordance with the site plan permit and this Agreement, unless otherwise agreed by the parties.

c. If the City Council does not approve, or if PDRD does not issue the site plan permit, BCAC may proceed with discovery and trial in this matter and the parties are released from any obligations under this agreement not already performed.

6. Other Consideration Triggered by City Council Approval & Issuance of a Site Plan Permit:

BCAC agrees that:

a. The parking lot paving and bio-filtration pond shall be completed not later than three years from the date PDRD issues a site plan permit.

b. Upon PDRD issuance of the site plan permit, Plaintiff agrees to repair current erosion and sediment controls and remove at least 1-foot of sediment in the existing pond. If the pond re-fills with sediment during construction, Plaintiff agrees to remove at least 1-foot of sediment from the pond at the time the pond is determined to be full.

c. BCAC shall not occupy its proposed commercial kitchen, paved parking, or other proposed new structure until the bio-filtration pond is completed and functioning. BCAC agrees that the bio-filtration pond shall comply with specifications described in Exhibit "B" attached.

d. Rainwater harvesting shall not be required until Amphitheatre phase is built.

e. The site plan permit shall expire if not completed in ten years after PDRD issues the site plan permit.

f. In the event that the City's Land Development Code conflicts with the requirements of this Agreement or would otherwise prevent construction of the site plan shown

on Exhibit A and Exhibit B, this Agreement shall control. Where no such conflict exists, development of the project shall conform to the City's Land Development Code.

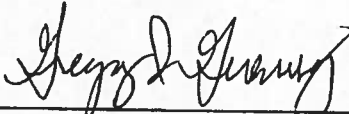

7. **Mediation Fees.** Mediation fees shall be divided equally between the parties.

8. **Disputes as to form of documents.** Any disputes as to form of dismissal and release documents contemplated under this Agreement shall be referred to Claude E. Ducloux for assistance as to form.

SIGNED and AGREED on this ____ day of March 2013.

Council Question and Answer

Related To	Agenda Item # 18	Meeting Date	March 28, 2013
-------------------	-------------------------	---------------------	-----------------------

Additional Answer Information

As requested, attached for your information is a copy of the agreement.

- The agreement supersedes sections 25-8-341 and 342 by allowing, in limited areas designated on Exhibit A to the agreement, cut & fill in excess of the 4 feet allowed.
- The agreement supersedes section 25-8-514 by allowing impervious cover in the amount of 32% of the gross site area, while SOS allows impervious cover of 20% of the net site area.
- The agreement supersedes section 25-8-514 by allowing a bio-filtration pond to be used for water quality control on the site rather than a water quality control method that meets the non-degradation standard of this section.

At this point, we are not aware of any other specific requirements waived or superseded by the agreement. However, any other requirement of Title 25 that would prevent development according to the map in Exhibit A, as attached and referenced by the Ordinance, would also be waived. All other requirements not specifically designated in the agreement or Exhibit A must be followed.

If Council passes the ordinance, then 25-8-514 is amended to allow impervious cover of 32% of the gross site area and to allow the bio-filtration pond described in Exhibits A and B. The amendment is site specific, and applies only to this project.

Related To	Agenda Item #19	Meeting Date	March 28, 2013
-------------------	-----------------	---------------------	----------------

Additional Answer Information

Attached for your information is the list of projects generated in response to the referenced citizen request. This information is in a slightly modified format than what was provided to the citizen. The list includes all grandfathering applications received from 1999 forward as well as the case type, case number, applicable Watershed, filing date, and application status. The list does not reflect the Chapter 245 decision or the project's location in terms of the Barton Springs Zone, Drinking Water Protection Zone, or Desired Development Zone.

As you may recall, staff provided a sample of 4 ½ years of grandfathered applications. Over the past 4 ½ years a total of 802 requests have been submitted for project vesting. Of these, 267 were approved and 535 were denied. Of the total number of projects request project vesting, 51% (411) would have been subject to project duration based on the year they were permitted. It's not clear, however, what portion of the denials were based on project duration or one of the other grounds that are frequently used to limit grandfathering. Currently, there are less than five Chapter 245 vesting requests pending a staff decision.

Over the past 4 ½ years approximately 312 projects within the Drinking Water Protection Zone (DWPZ) have requested vesting under Chapter 245. Of these DWPZ projects, 209 were located within the Barton Springs Zone (BSZ). Of the total number of vesting requests submitted within the DWPZ 34% (106) projects have would have been subject to project duration (27% or 56 projects within the BSZ) based on the year they were permitted, though that doesn't necessarily mean they would be expired under project duration or terminated on some other grounds. Please note, the applicant decides the "date of first application" for a project which may also affect its project's expiration.

Over the past 4 ½ years a majority of project vesting applications 61% (490) were filed in the Desired Development Zone (DDZ). Of these, 105 were approved and 385 were denied. Of the total number of vesting requests submitted within the DDZ 62% (305) would have been subject to project duration based on the year they were permitted. It's not clear, however, what portion of the denials were based on project duration or one of the other grounds that are frequently used to limit grandfathering, notably: "project complete" or a "change of project."

A list of projects requesting grandfathering follows.
