

Dear Mayor, City Council, Planning Commissioners, and City Staff,

I am a parent of Cedars Montessori School located at 9704 Circle Drive. The school is important to our family by providing an individualized rich educational program in a beautiful natural setting. It is one of only 3 elementary Montessori programs offered in Austin; the only one with a land based program incorporating farm animals, gardens and sustainable practices. This is a unique school that has been here for 39 years and is one of the centers of this community. Please help us to sustain this fine school.

I support the requested zoning change from Rural Residential (RR) zoning to Limited Office (LO). The school began prior to annexation and has operated under the RR zoning category. In March of 2013, a fire destroyed one of the school's classroom buildings. In order to obtain the necessary permits to proceed with rebuilding the classroom, a "commercial" zoning designation is needed.

Sincerely,

Gitana Sweethardt

Dear Mayor, City Council, Planning Commissioners, and City Staff,

We are parents and proud neighbors of Cedars Montessori School located at 9704 Circle Drive. The school is important to our family because it provides an individualized rich educational program in a beautiful natural setting. This school understood the benefits of enhanced learning and well-being of kids in nature long before the term "Nature Deficit Disorder" became mainstreamed. It is one of only 3 elementary Montessori programs offered in Austin; the only one with a land based program incorporating farm animals, gardens and sustainable practices. This is a unique school that has been here for 39 years and is one of the centers of our community. Please help us to sustain this fine school.

In the middle of the night one evening in March of 2013, a fire destroyed the school classroom building where our son attends class with his friends. While he and his classmates were initially heartbroken over the loss of their room and their schoolwork, they quickly embodied an inspiring resiliency, making it clear that they have great pride in this school and the rich learning environment of the greater campus.

We support the requested zoning change from Rural Residential (RR) zoning to Limited Office (LO). The school began prior to annexation and has operated under the RR zoning category. In order to obtain the necessary permits to proceed with rebuilding the classroom, a "commercial" zoning designation is needed. Please support this zoning change request and help this school live on as a model school for our children and for other educators around the country seeking to develop programs and settings inspired by campuses like these.

Sincerely,

Jon and Kathy Zarsky

I support the requested zoning change from Rural Residential (RR) zoning to Limited Office (LO). The school began prior to annexation and has operated under the RR zoning category. In March of 2013, a fire destroyed one of the school's classroom buildings. In order to obtain the necessary permits to proceed with rebuilding the classroom, a "commercial" zoning designation is needed.

Since this tragedy, the children that attend Cedars and staff have all shared the burden of continuing their education, sacrificing much by sharing classrooms, materials, and space on the grounds. Please help us expedite this zoning designation so that our 2013-14 year will be smooth from the beginning. The Cedars families and staff would much appreciate all your help!

Sincerely,

Jason and Christina Wagner

Dear Mayor, City Council, Planning Commissioners, and City Staff;

We are parents of three children attending Cedars Montessori School located at 9704 Circle Drive. Cedars is one of only three elementary Montessori programs offered in Austin; the only one with a land based program incorporating farm animals, gardens and sustainable practices.

Cedars Montessori School is important to our family because it provides an individualized, rich, Montessori educational program in a beautiful natural setting. Committed to the Montessori philosophy of education, we researched all the Montessori programs in Austin prior to our move here two years ago. Cedars provides a unique environment particularly suited to the Montessori curriculum. A properly prepared environment is a cornerstone of Maria Montessori's internationally recognized pedagogy. The Cedars natural campus environment is a critical piece of its success. This is a unique school that has been here for 39 years and is one of the centers of this community. Please help us to sustain this fine and unique school.

I support the requested zoning change from Rural Residential (RR) zoning to Limited Office (LO). The school began prior to annexation and has operated under the RR zoning category. In March of 2013, a fire destroyed one of the school's classroom buildings. In order to obtain the necessary permits to proceed with rebuilding the classroom, a "commercial" zoning designation is needed. Please help us and all future families enjoy this amazing campus!

Sincerely,
