**Additional Backup Information**

This transaction will allow Austin Water to take advantage of currently favorable market conditions and restore the available capacity under its tax exempt commercial paper program for future borrowing needs by refunding up to \$220,000,000 of tax-exempt commercial paper. In addition, due to current favorable conditions in the municipal bond market, the City's financial advisor, Public Financial Management, Inc., has advised that a refunding of \$123,670,000 of the City of Austin Water and Wastewater System Revenue Refunding Bonds, Series 2004A and \$113,335,000 Series 2005A may result in present value savings exceeding the City's target guideline of 4.25% of the refunded bonds. As of May 27, 2013 the transaction produced \$25,561,454 in present value savings or 10.79%.

In order to provide the City with the flexibility to quickly respond to changing market conditions, the proposed ordinance delegates the authority to the City Manager or Chief Financial Officer (the "Pricing Officer") to complete the sale of the refunding bond transaction in accordance with the parameters in the ordinance. The parameters

stipulate that the Pricing Officer will only execute the sale of the bonds if the City can achieve a present value debt service savings of not less than 4.25%. In addition, Pricing Officer may only exercise the authority delegated by Council under the ordinance until December 31, 2013.

The transaction will be sold through the following underwriting team:

Co-Senior Managers: J.P. Morgan Securities LLC; Ramirez & Co., Inc.  
Co-Managers: B of A Merrill Lynch
