

Late Backup

# Same Companies Interment Services

Sub-Contractor to  
InterCare Corp.  
(Gene Bagwell)

# Reason's Not to Contract with Interment Services

- Work could not be verified by the City Auditor (2010 and 2012)
- Drained the Cemetery Perpetual Interest Fund with unsubstantiated expenses
- Used equipment stored at Austin Memorial Park Cemetery for other non-city cemeteries
- Following pictures show work that no one would think is appropriate. Interment Services did not even try to correct until pictures were taken.

# Interment Services

## No good reason from PARD

- Good Price
- Excellent References
- Gene's a good guy and we trust him
- Lot's of experience and has equipment
- PARD says they must bury and are out of time
- PARD will monitor this contract
- PARD pays on work billed
- Gene needs more money since he has to store equipment off site now and cannot illegally store gasoline on site – PARD has to make him whole!
- Gene and Purchasing has already agreed to the deal

# Interment Services

## No Way!

- **No prudent person would contract with this company for 5 years with two 5 year extensions = 15 years**
- **Requesting more money that will increase over time**
- **History of bad performance – Gene owes City \$69,000 inappropriately paid by PARD**
- **Gene is not here in Austin to supervise his men daily so they can do whatever they want on any given day**
- **Interment Services is Gene Bagwell. The same owner-operator the City contracted with in 1990 who ran the cemeteries into the ground**
- **City Auditor wrote these people up twice**

# Deny Approval of Contract with Interment Services

- SIGN TWO OR THREE YEAR CONTRACT. NOT 15 YEARS.
- RESOLICIT AND SEARCH FOR BETTER COMPANIES
