

RE: City Council 10-1 Districts

I have been a resident in the Gracywoods neighborhood in North Austin for the past 13 years. It is very important to myself and my neighbors that we have a city council member that specifically represents our neighborhood and surrounding areas. During my time here we have been severely underrepresented in city council. Now, with the 10-1 redistricting, it is a good opportunity for us to make sure that we can be involved in the greater Austin community. Please take this into account when drawing the district maps and refrain from gerrymandering our area. The following link is a good example of how we, the residents of North Austin, would like to see the map drawn:

Thank you for your consideration.

Sincerely,

Brian Crandall
