## ZONING CHANGE REVIEW SHEET

**CASE:** C14R-86-077(RCA) **P.C. DATE:** September 10, 2013  
Harper Park Residential Restrictive Covenant Amendment August 13, 2013  
July 23, 2013

**ADDRESS:** 5816 Harper Park Drive **AREA:** approx. 17.75 acres

**OWNER:** Harper Park Two, L.P. (Gail M. Whitfield)

**APPLICANT:** The Whitfield Company (Marcus Whitfield)

**REQUEST:** No amendment has been proposed to the existing document. Amend the existing public restrictive covenant only to the extent as may be necessary in conjunction with zoning case C14-2013-0006.

**NEIGHBORHOOD PLAN AREA:** East Oak Hill  
(Oak Hill Combined Neighborhood Plan Area)

### **SUMMARY STAFF RECOMMENDATION**

Staff recommends amending the existing public restrictive covenant to incorporate the following conditions:

- Construction of Harper Park Drive is required during the site plan stage and
- Installation of a traffic signal at the intersection with US Hwy 290 W is required

These conditions are associated with a recommendation to grant LO-MU-CO-NP zoning to the 17.75-acre property, as requested in Case # C14-2013-0006.

### **PLANNING COMMISSION ACTION:**

August 13, 2013 Postponed to September 10, 2013 at the request of the Oak Acres Subdivision, with the applicant concurrence of the request (Consent Motion: B. Roark; Second: S. Oliver) 5-0 (Absent: D. Anderson, D. Chimenti, M. Smith, R. Hatfield)

July 23, 2013. A postponement request from the Oak Acres Subdivision to August 27 was submitted. However, because the Planning Commission meeting was cancelled, the request for postponement was not considered.

### **DEPARTMENT COMMENTS:**

When a rezoning application was filed in February 2013, this Amendment application was also filed for the existing public Restrictive Covenant (RC). Adopted at the time the rezoning ordinance was finalized in 1992, the public RC (see Exhibit RC) specifies the following for a 29-acre tract, of which the associated 17-acre rezoning tract (see Exhibit A) was a part:

*The following conditions shall apply to Tract 6:*

- 1) Any structure constructed on Tract 6 shall not have exterior facades constructed entirely of glass.
- 2) Any structure constructed on Tract 6 shall not exceed two stories or a height greater than 40 feet above ground level on Tract 6, whichever is less.

The rezoning request submitted in February was to rezone the property to a base zoning district of MF-2; by right this zoning district allows for a maximum height of 3 stories or 40 feet. The proposed amendment would have changed the restriction from two stories or 40 feet, whichever is less, to two stories or 40 feet, whichever is greater.

The applicant is no longer proposing to amend this restriction in the existing public RC.

However, the applicant is proposing additional limitations to development of the site as part of the rezoning request, and is well aware City staff and/or officials may require other limitations or conditions to site development as part of the rezoning. Currently, staff has identified two items (i.e., construction of Harper Park Drive and signalization at its intersection with US Hwy 290 W) for inclusion in a public RC (as opposed to inclusion within the Conditional Overlay).

While a new and separate public RC could be drafted and executed as part of the rezoning case, the applicant would prefer to amend the existing RC, as necessary, rather than have another separate instrument document encumbering the property.

#### **Petition**

The application to amend the restriction was filed on February 4, 2013, the same date as the associated zoning case for the 17-acre tract (C14-2013-0006) and a 0.0133-acre tract near US Hwy 290 W (C14-2013-0005) were submitted; the case for the 0.0133-acre tract has been withdrawn completely.

The request on the 17-acre tract was originally from LO-CO-NP to MF-2-CO-NP. A petition was submitted shortly thereafter on that case, and was determined to be valid, with an approximate 43% of eligible property owners (see Exhibit P). In tandem with that petition, a petition was submitted referencing this restrictive covenant amendment case. Staff believes this was an error in referencing the case number, believing the second petition was meant for the second rezoning case (which was also a request from GR-CO-NP to MF-2-CO-NP). Petitioners have been informed there are no petition rights for this type of application, as there are for rezoning cases.

Please refer to C14-2013-0006 for further discussion of the associated rezoning case, and restrictions that may or may not result from deliberation of the case at Planning Commission.
