I am writing in regard to the above subject as I am unable to attend the meeting today. I live on Painted Valley Dr. In northwest Austin.

The map from 183 to 2222 and western edge to Travis is more congruent with communities with common interests and needs representation by one person.

We should not base our boundaries on school boundaries as we have school boards to handle those issues.

We need a voice in contiguous areas with common interests and the minority population cannot be split as they would lose their voice.

Thank you,
Patricia Begnaud
