

Craig:

As requested by the commission, I have asked the Legislative Council to e-mail to you its demographic information on Austin by election precinct (VTD).

It occurred to me last night that the best information is actually obvious. In May, the city submitted its preclearance request for Proposition 3 (before the ruling in Shelby County). By law, this submission must have contained a current map of all city election precincts and annexations and complete demographics (including citizen voting age population and SSRV) for each precinct. I am sure that somewhere in the city's files there is an electronic copy of the submission. As an alternative, I am sure that one exists at the law firm (Bickerstaff, Heath, Delgado, Acosta) that prepared the submission. If you wish to follow-up, the person at the firm who represented the city on this matter is Syd Falk .

Thanks.

Steve Bickerstaff
