The motion to approve the following recommendations to Council was made by Vice Chair Paup, seconded by Commissioner Taylor and approved on a 9-0-0 vote:

The CDC recommends approval of the Fiscal Year 2013-14 Action Plan. The Commission recognizes the City's support of the Housing Trust Fund (HTF), Housing Tax Credit projects, and support of other local resources. We note the findings in the Action Plan that the number of extremely low-income households in Austin has increased. Similarly, we note Austin's status on the attached chart of poverty rates. We also note Austin's robust housing programs such as the GO Repair Program which is a low-income program that helps low-income families who are predominantly seniors. With this demonstration of need coupled with our ability to meet this need, the CDC strongly recommends that the City Council increase local funding for housing programs to a total of \$12 million dollars, with \$3 million dollars allocated to the GO Repair Program, and the balance of funds to be allocated following additional public input.
