

Circle C HOA

The CCHOA BOD realizes that we have missed many meetings, but would like to express our opinions on the redistricting map. There has been some misunderstanding that we supported the map that OHAN supports, but no input was solicited nor provided directly from us. The board would like to propose that Circle C be drawn in a district with like minded neighborhoods nearby. We propose a district that runs from Brodie Lane as an East boundary that includes Shady Hollow since we have similar transportation issues with the potential of SH45SW. The boundary can run as far North as Ben White or 360 and as far West as needed to get the population numbers in line. This would pair us with like minded neighborhoods as well as others over the environmentally sensitive aquifer.

10/19 Meeting
