

Craig,

My husband and I live and work in the Onion Creek subdivision. Most everything we need to access is on an east-west line from Onion Creek to the Shady Hollow/MoPac area. Because of that, we are very concerned about the roadways (or lack thereof) that we have to travel to get back and forth. East-west alternatives are few and far between. We also believe that the demographics of our neighborhood more closely resemble those in the neighborhoods to the west of us and most especially the Shady Hollow area. The current District 5 configuration meets the representative needs of our neighborhood and we strongly urge your support of the configuration to include all of Shady Hollow. It makes no sense to split neighborhoods in half when trying to design a representative district for governmental purposes. Thank you for your consideration.

Bob and Kathy Pillmore
