

Just a note from 78745 to say thank you for splitting us from the more influential, wealthier voices of 78704. It is my hope that this change will lead to some long-needed, long-withheld City attention in our area. We aspire to things like side walks, "real" bike lanes, covered bus stops, a dog park, etc. All the frills that come along with the City's ear.
