Dear Chairwoman Blanco and Commissioners,

Bryker Woods is a central Austin neighborhood, Precinct 214, between MoPac and Shoal Creek south of West 35th Street. There are approximately 700 homes in the Bryker Woods neighborhood.

The Board of the Bryker Woods Neighborhood Association has voted to support the adoption of the Compact Districts Coalition map. We understand that this map was submitted to the ICRC on 10/19/13. Bryker Woods would be in District 9 of the CDC map and we believe that would keep us with neighborhood communities of interest in a more geographically compact way, that is, in a manner that does not bypass nearby populations for more distant populations.

Derek Barcinski
HRC

We appreciate the difficulty of your task but believe that the CDC map would be a more compact, more logical and, therefore, more durable map.
