

Mr. Tounget,

I cannot attend the meeting tonight, nor the one on Saturday, but would like my comments recorded.

I have been to several of the meetings and have given my support to Southwest District 8 as supported by OHAN. This map best meets the sense of community that we have.

We already have people wanting to run for the Council position for this district and this is further confirmation that the district does represent a cohesive community of common interests.

Please note that we do want Precinct 354 (comprising the area known as Travis Country) to remain in the district. The new Compact District map seems to want to include it in another district. It is distinctly part of the Oak Hill area and should remain in Southwest District 8.

Thank you for your time and for accepting these comments.

Claudia Corum

Circle C resident

Southwest District 8
