

Mr. Tounget,

As a long time resident of Tarrytown in West Austin, I was dismayed to see that my neighborhood was excluded from being in the same district as its other historically-connected and similarly situated neighborhoods. The "bacon-shaped" proposed District 7 combines too many dissimilar neighborhoods as well as reminds me of the goofy-looking gerrymandered maps we've recently seen that unfairly carves up Austin into 5 Congressional Districts. I strongly believe this map is unfair to many of the West Austin neighborhoods and should be revised.

I implore the Commission to reconsider the current proposed boundaries of District 7 and fully support the **Alternative Map for District 7** proposed by the West Austin Neighborhood Group (WANG). Below is the testimony made by members of WANG and a link to the group's proposed map. I strongly urge the Commission incorporate WANG's suggested revisions in its final map.

Thank you for your service, time and consideration of my comments.

Sincerely,

Jason Warner
