

Craig,

The Northwest Austin Civic Association (NWACA) board formally submits this resolution for consideration by the ICRC. The resolution adopts and approves of the geographic boundaries roughly contained in the ICRC Official Preliminary Map (District 10), dated September 28, 2013. While the actual physical boundary lines are somewhat different than those adopted by the NWACA board in its resolution, the ICRC Preliminary Map maintains and keeps together the neighborhoods that NWACA has identified as its communities of interest: Great Hills, Jester Estates, River Place, Lakewood, Highland Hills, and Northwest Hills.

The board would like to also extend its sincerest appreciation to the tremendous amount of work and effort that each and every one of the commissioners has put into this process. It is the ultimate civic service, with very little public thanks. We are pleased, and thankful, that the commission has carefully considered the requests and testimony from NW Austin, and chosen to create a district that maintains our community of interest. We hope, and trust, that the commission continues to maintain the boundaries, and communities of interest, identified in the attached resolution.

Regards,

Joyce Statz

Robert Thomas

NWACA Board Members
