CASE: C14-2013-0109 River Place Center

Z. P. C. DATE: 10/15/13

ADDRESS: 10819 FM 2222 Rd.

AREA: 7.38 acres

APPLICANT: Capella Commercial-Riverplace, L.L.C. (Todd Dailey)

AGENT: Jones & Carter, Inc. (Darren Webber)

NEIGHBORHOOD PLAN AREA: N.A.

CAPITOL VIEW: No

T.I.A.: Yes

HILL COUNTRY ROADWAY: Yes

WATERSHED: Bull Creek/Panther Hollow

DESIRED DEVELOPMENT ZONE: No

ZONING FROM: GR – Community Commercial & LO – Limited Office.

ZONING TO: GR – Community Commercial.

SUMMARY STAFF RECOMMENDATION:

Staff recommends GR-CO, Community Commercial, Conditional Overlay. The Conditional Overlay would add the following language to the ordinance –

“A site plan or building permit for the property may not be approved, released, or issued, if previously authorized development and uses, generates traffic that exceeds the total traffic generation the completed development or uses of the Property, considered cumulatively with all existing or for the Property as specified in that certain Traffic Impact Analysis (“TIA”) prepared by HDR/WHM Transportation Engineering, dated February 7, 2008, or as amended and approved by the Director of the Planning and Development Review Department. All development on the property is subject to the recommendations and conditions in the TIA and memorandum from the Transportation Review Section of the Planning and Development Review Department dated April 25, 2008. The TIA shall be kept on file at the Planning and Development Review Department.”

DEPARTMENT COMMENTS:

The subject property is currently undeveloped and part of the River Place Center subdivision and site plan. The land area is lot 7A of the Resubdivision of Lot 1, River Place Center fronting on FM 2222 Road and River Place Boulevard. This lot is zoned Limited Office (LO) and Community Commercial (GR). The applicant proposes to rezone the property from Limited Office (LO) and Community Commercial (GR) to Community Commercial (GR). The subject rezoning area consists of approximately 7.389 acres of land as depicted on the zone change map. However, the actual area to be rezoned is approximately 3.6 acres of land or the Northern part of Lot 7A (see second zone change map with cross hatched area). On December 9, 1985, the front part of the site was rezoned from I-SF to GR and LO under Ordinance No. 851219-DD (see attached ordinance) which attached a zoning site plan to the property. Additionally, on April 10, 1986 the remainder of the site, the southern portion of Lot 7A, was rezoned from I-SF-2 to GR by Ordinance 860410-I (see attached ordinance). On July 20, 1988, Ordinance No. 851219-DD was amended by Ordinance 880728-E (see attached ordinance). This was a "corrective ordinance" to switch the "LO" and "GR" areas. On March 20, 2008 a zone change request was approved to remove the old zoning site plans from the area by Ordinance 20080320-065 (see attached ordinance). With the existing Community Commercial (GR) to the South of the zone change request, staff is of the opinion that there will be no detrimental impact by recommending approval of the zone change request to the North. There still is an existing "buffer" of Limited Office (LO) between the zone change request and the Scenic Highway/Hill Country Roadway of FM 2222.

BASIS FOR RECOMMENDATION:

1. Zoning changes should promote a balance of intensities and densities.

Granting the GR – Community Commercial zoning marginally increases the existing GR zoning in the front due to the fact that the tract to the rear is already zoned GR.

- SP 3. This site is located within the Ranch Road 2222 Scenic Roadway subdistrict. For projects requesting performance incentives for scenic vista protection as per Section 25-2-1128 the site plan shall: a) illustrate the location and nature of any existing or potential scenic vista from or in close proximity to public roadways or recreation areas, and b) show how such vistas would be impacted by the proposed development.
- SP 4. Development on this site shall be subject to *Subchapter E: Design Standards and Mixed Use* regulations.

TRANSPORTATION:

1. The Austin Metropolitan Area Transportation Plan calls for 140 feet of right-of-way for RM 2222. [LDC, Sec. 25-6-51 and 25-6-55]. Additional right-of-way will be required at the time of subdivision and/or site plan for RM 2222.
2. A traffic impact analysis was prepared for the site development permit SPC-2007-0591C. The applicant agreed to limit the intensity and uses for this development to comply with the approved TIA. If the zoning is granted, development should be limited through a conditional overlay to less than 1,584 vehicle trips per day [LDC, 25-6-117].
3. According to the Austin 2009 Bicycle Plan Update approved by Austin City Council in June, 2009, bicycle facilities are recommended along the adjoining streets as follows: RM 2222.

ENVIRONMENTAL:

- 1) According to watershed maps, this property lies on or very close to the divide between the Bull Creek Watershed and the Panther Hollow Watershed (Water Supply Suburban and Water Supply Rural Watershed classifications). The site is located in the Edwards Aquifer Recharge Zone and the Drinking Water Protection Zone.
- 2) According to flood plain maps, there is no flood plain in or within close proximity of the project location.
- 3) The site is located within the endangered species survey area and must comply with the requirements of Chapter 25-8 Endangered Species in conjunction with subdivision and/or site plan process.
- 4) Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.
- 5) Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.
- 6) At this time, no information has been provided as to whether this property has any preexisting approvals which would preempt current water quality or Code requirements.
- 7) Under current watershed regulations, development or redevelopment on this site will be subject to providing structural sedimentation and filtration basins with increased capture volume and 2 year detention.

Following are the comments for each watershed classification:

Water Supply Suburban

- 1) Under the current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

C3/5

<i>Development Classification</i>	<i>% of Net Site Area</i>	<i>% NSA with Transfers</i>
One or Two Family Residential	30%	40%
Multifamily Residential	40%	55%
Commercial	40%	55%

Water Supply Rural

- 1) Under the current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Net Site Area</i>	<i>% NSA with Transfers</i>	<i>Allowable Density</i>
One or Two Family Residential	n/a	n/a	1 unit/2 acres net site area
Multifamily Residential	20%	25%	n/a
Commercial	20%	25%	n/a

- 2) Single family or duplex development within a Water Quality Transition Zone may not exceed a density of one unit per three acres, exclusive of land within a 100-year floodplain, and must have a minimum lot size of 2 acres.

COMPRHENSIVE PLAN

This zoning case is located on the south side of FM 2222 Road, just west of River Place Boulevard. The property is vacant, approximately 3.5 acres in size, and is not located within the boundaries of an area with an adopted neighborhood plan. Surrounding land uses includes a pottery store and septic system installer to the north, a large office complex to the south, an auto repair shop to the west, and vacant land to the east. The proposed use is commercial.

Imagine Austin

The Imagine Austin Growth Concept Map identifies this property as being adjacent (less than 1,000 ft.) to one of the five ***‘Activity Centers for Redevelopment (located) in an Environmentally Sensitive Area’*** as identified on the Imagine Austin Growth Concept Map, found in the Image Austin Comprehensive Plan. This property is also situated within the boundaries of the Edwards Aquifer Recharge Zone. Page 106 of the Imagine Austin Comprehensive Plan states, *“Five centers are located over the recharge or contributing zones of the Barton Springs Zone of the Edwards Aquifer or within water-supply watersheds. These centers are located on already developed areas and, in some instances, provide opportunities to address long-standing water quality issues and provide walkable areas in and near existing neighborhoods. State-of-the-art development practices will be required of any redevelopment to improve stormwater retention and the water quality flowing into the aquifer or other drinking water sources. These centers should also be carefully evaluated to fit within their infrastructural and environmental context. One of the Land Use and Transportation policies, LUT P21 (p. 102), clarifies the intent, “Ensure that redevelopment in the Edwards Aquifer’s recharge and contributing zones maintains the quantity and quality of recharge of the aquifer.”*

C3/6

comparatively small scale of the site relative to the rest of the commercial development in the area falls below the scope of Imagine Austin, consequently, the plan is neutral on the proposed rezoning. However, due to the site's location in an environmentally sensitive area, there will be at the site planning stage an environmental review to determine if any critical environmental features are located on the site. If any are located, mitigation and setbacks necessitated by the land development code will be required. Although the site is not within a center, it is proximate to one, and this current review practice is in keeping with the discussion in Imagine Austin relative to state of the practice measures be employed in centers in sensitive areas. When looking at basic planning principles, the proposed use is similar to the adjacent commercial and office uses and helps to further the consistency among the uses within the block.
