

Recommended changes to ICRC working map of 11.2.13 to balance

Commissioners,

Here are some ideas for balancing the map and strengthening & equalizing the Min. Opp. Districts:

Balance and Equalize the SE

Move Pct. 442 from Dist. 2 to 3 = 2814

Move Pcts. 446 & 425 from Dist. 5 to 2 = 1827 & 978

Move Pct. 430 from Dist. 3 to 5 = 3056

Reduce Dist. 9

Will note that you have initially split the neighborhood of Tarrytown straight down the middle on Windsor Road.

Move Pcts. 210 & 251 from 9 to 10 = 2107 & 4908

Move Pct. 307 from 9 to 10 = 402

Move Pct. 352 from 8 to 5 = 4853 (split?)

Move Pct. 356 from 9 to 8 = 2825

Move Pct. 240 E. of Mopac from 10 to 7 = ~ 700 (clipped?)

Move Pct. 200 N. of 45th from 9 to 7 = ~ 3500 (clipped?)

Bump Dist. 1 above 30%

Move only one block containing Student dorm in Clipped Pct. 206 from 1 to 9 = ~ 200

Move Southern Clipped 1/3 portion of Pct. 133 from 9 to 1 = ~ 400

(The above two changes should put the Black %'s in Dist. 1 above 30%)

After the above changes I believe Pct. 200 can be cut in a logical manner between 9 and 7 to balance them.

Will try to have the above changes mapped in GIS soon for visual.

Also, question on Ridgetop NA came up in the Sat. meeting. Official map of that is attached.

Keep up the good work,

Brad Parsons,
Austin, TX.
