

I am a resident of Onion Creek in Precinct 406.

You have an extremely difficult job and, in my opinion, the process appeared to be progressing pretty well until the drastic changes that have transpired over the past two weeks. The changes during that time, however, would effectively destroy any continuity of interest among the south and far south Austin neighborhoods in District 5. As you have heard from these neighborhoods, the only consistency would be east to west, not from Onion Creek to Barton Creek as the latest proposed map would establish.

I respectfully submit that the September 28th map, with only minor tweaks (e.g. keeping all of Shady Hollow in District 5), would create a District 5 with like interests which was your charter. Thank you for your service to the Austin community.

George G. McCulley
