Dear Chairwoman Blanco and Commissioners,

Joyce Basciano
BoA, RDCC

This will supplement our previous letters. We write now to address your November 6, 2013 proposed final map.

Derek Barcinski
HRC

1. It is disappointing that you did not reconnect Bryker Woods with Allandale, Brentwood and Crestview as requested, but on a positive note appreciate that you, at least, kept Bryker Woods and Rosedale in the same district. The two neighborhoods are contiguous, similar in composition and share common interests, issues and challenges. Both neighborhoods track to Bryker Woods Elementary School. We do not, of course, purport to speak for Rosedale.
2. You placed us in District 10 and so we feel compelled to now address that district. A comparison of maps indicates that your November 6th map significantly improved District 10 from its prior configuration. We strongly urge you to maintain the current boundary line between Districts 6 and 10 out of fairness to all of District 10's constituent neighborhoods.
