

Dear Mr. Tounget,

I am a resident of northwest Austin and I am writing in support of the final map voted out by the Independent Citizen's Redistricting Commission on November 6, 2013.

I live in central Austin and the majority of my property tax dollars go to support AISD. I want to know that I am represented by a Council member who shares my school district and the central traffic and development issues that are important to me. The Loop 360 and close-in Mopac residents share common issues with other central Austin citizens and we do not have the same concerns as residents of Lake Travis and far north Austin.

In the previous map my central Austin voting precinct, Precinct 220, was split in half horizontally. The final map makes much more sense in terms of serving the needs and assuring meaningful representation of our central northwest community.

Robin Abbott
