

Hi Craig,

I recieved an email from a Mr. Michael Cannati urging me to support a revised map which supports combining West Austin with the interior Northwest Hills nieghborhoods. As a lifelong resident of Austin/Northwest Hills and Tarrytown I completely oppose this and support the earlier map with a 2222 division line between districts 9 and 10. Extremely wealthy elements of West Austin have proven to be impervious to the property tax increases they have proposed over the years which have resulted in harmful consequences such as the pushing of African Arnericans out of the Clarksville neighborhood via tax increase and saddling burdensome tax bills on the Seniors of Northwest Hills such as my parents. Please support the earlier map and preserve the integrity of Austins nieghborhoods.

Thank you,

Todd Phelps
