

Dear Committee,

I live in Northwest Hills near Far West and Mesa. I do not live in a suburb like Steiner Ranch off of 620. The final version of District 10 map puts my neighborhood in with other west of MoPac - central Austin groups. We have parallel property issues, transportation issues, water drainage issues, property value issues and emergency service issues. I very much would appreciate your keeping the current version of District 10 map as is and not reincorporate suburb communities like Steiner Ranch and Riverplace. They don't have established neighborhood (40+ years) issues and central Austin issues consistent with our neighborhood. If the intent of the district boundaries is for natural cohorts to be grouped together then the current District 10 map is successful in that effort.

Fred Fox
